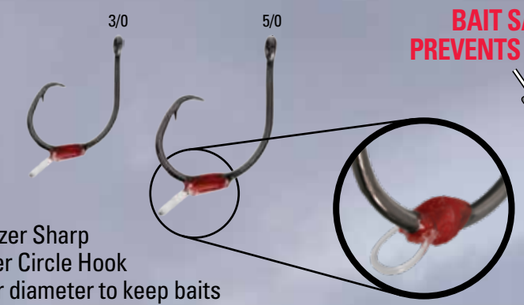
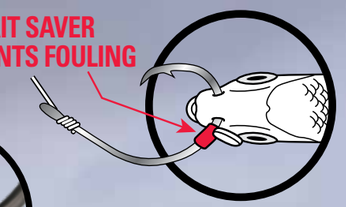
BAIT SAVER

DON'T LET THIS HAPPEN!

L2004BSG All-Purpose Circle, Light Wire, Non-Offset, Forged Shank

L2004BSG	Platinum Black	3/0, 5/0





Building off the success of the Trokar Bait Saver, the Lazer Sharp Bait Saver offers a Bait Saver Circle Hook in smaller sizes and a thinner diameter to keep baits lively and moving naturally. The Bait Saver is comprised of a small monofilament loop expertly tied to the bend of the hook and locked in place with epoxy, preventing your bait's gills from becoming punctured when casting. The Lazer Sharp Bait Saver features a forged Lazer Sharp point for added strength and a corrosion-resistant platinum-black finish to reduce visibility. Keep your bait alive and perfectly placed every cast with the Lazer Sharp Bait Saver.

SALTWATER IN-LINE STRIPER CIRCLE HOOK RIGS

Lazer Sharp Striped Bass Inline Circle Rigs are built with 100% regulation compliant, American made inline circle hooks. They meet strict striped bass regulations and support responsible catch and release. Inline hooks consistently set in the corner of the mouth, reducing injury and improving survival rates. Spend more time fishing and less time rigging with Lazer Sharp Rigs.

EAGLE EYE UNDERSPIN JIG

The Eagle Eye Underspin was built to maximize bites and turn them into fish in the net. The blade configuration ensures the blade spins freely, powered by a ball bearing swivel that keeps it moving at any speed. Optimized blade-to-hook spacing eliminates contact with your bait, so it runs clean every cast. The twin talon keeper locks soft plastics in place, giving you more fish per bait and confidence knowing your bait is locked in perfectly. Finished with an American-made Lazer Sharp Pro-V hook that sticks on contact and locks fish in.

Lazer Sharp Tungsten Jigs let anglers feel more and drop faster. The compact tungsten head delivers the weight you need in a smaller profile, while the twin talon keeper locks soft plastics in place for more fish per bait. Finished with an American-made Pro-V needlepoint hook that sticks on contact and won't let go.

PROP 65 | **WARNING:** This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

Built to slice current, maintain a horizontal profile, and stick giants, the Walleye River Jig is essential for serious walleye anglers. Its specialized head design delivers precise control in heavy current for a natural presentation. The twin talon keeper locks plastics firmly in place. An American-made Lazer Sharp hook provides strength to land big fish, and the Pro-V Bend keeps them pinned.
