# IELTS Teacher Training Course

## Learn from IELTS experts and former examiners

IELTS teaching requires more than knowing the test. It requires a clear understanding of the assessment criteria, the ability to identify what learners need to improve, and practical strategies for turning that understanding into effective classroom teaching.

Team IELTS Teacher Training brings together experienced IELTS professionals and former IELTS examiners to provide practical training for teachers working with IELTS students around the world.

## What the course covers

| | |
|---|---|
| **LISTENING**<br>Understand the demands of the Listening test and explore strategies and classroom activities that help learners develop the skills they need. | **READING**<br>Examine the skills required for IELTS Reading and consider practical approaches to developing reading strategies, comprehension, test awareness, and time management. |
| **WRITING**<br>Explore the IELTS Writing assessment criteria and how they can be used to identify learner needs and provide effective, focused feedback. Consider practical approaches in dedicated sessions focusing on Task 1 and Task 2. | **SPEAKING**<br>Develop a deeper understanding of the Speaking assessment criteria and explore ways to help learners improve fluency and coherence, lexical resource, grammatical range and accuracy, and pronunciation. |

## Who is the course for?

The course is designed for teachers who:

- **teach IELTS** but want to deepen their knowledge
- **want practical ideas** for teaching all four skills
- **would like to become more confident** analysing learner performance
- **want to reflect on and develop** their own IELTS teaching practice.

Whether you teach individuals, groups, in a language school, university, school or other educational setting, the course provides an opportunity to develop your IELTS teaching expertise in a supportive environment.
