As of the month ended May 2019, General Fund revenues are $3.4M more than May 2018. Other taxes had the largest positive variance of $4.0M, this variance was caused by an increase in the insurance premium tax and an increase in title ad valorem tax collections. Property taxes revenue also had a positive variance of $2.7M, which was the result of increased tax collections from public utilities and prior year property tax. In addition, there is a $2.4M increase in licenses and permits, which is the result of increase in commercial permits and business licenses. Interest earnings also had a positive variance of $1.4M because of the increased cash balance from the 2018 property tax collections and rising interest rates.

Despite the overall increase in revenue, there are a few revenue sources that are under performing. Transfers in had a negative variance of $8.7M, but this is a timing issue. Through May of 2018 the Cumberland Special Service Districts I & II had transferred over $8.0M to the General Fund to for annual debt service, which is paid in July. In June the Cumberland Service District I will be transferring $1.6M to the General Fund, and the Cumberland Special Service District II will be transferring $6.47M.

The fines and forfeitures category consist of nine different revenue sources and five of the nine have a negative variance compared to May of 2018. The largest negative variance is school bus safety camera fines, which are down by $697K.

GENERAL FUND YTD EXPENDITURES						
Classification	May 2019	May 2018	Inc/(Dec)	% Change	FY19 % of Total	FY18 % of Total
Personnel services	187,345,140	180,615,540	6,729,600.13	3.73%	67.95%	68.44%
Operating exp	55,517,132	53,135,895	2,381,237.08	4.48%	20.13%	20.13%
Capital	6,565,586	3,240,971	3,324,615.43	102.58%	2.38%	1.23%
Debt service	11,434,094	11,301,843	132,251.06	1.17%	4.15%	4.28%
Transfers out	14,863,473	15,607,857	(744,383.87)	-4.77%	5.39%	5.91%
Total	275,725,425	263,902,105	11,823,319.83	4.48%		

As of the month-ended May 31, 2019, General Fund expenditures were approximately $11.8 million more than the same period last year. Nearly all expenditure classifications contributed to the increase with personnel services, operating expenditures, and capital being the largest contributors at $6.7 million, $2.3 million, and $3.3 million, respectively.

Personnel services increased $6.7 million when compared to the same period last year. Salaries, including part-time hourly and per day positions, were $2.5 million higher than in May FY18. Much of the variance comes from part-time and over-time pay which were $947,000 and $848,000 over May FY18, respectively. Regular full-time salaries are only modestly higher, $614,000, year over year.

Full-time salaries can be affected by the number of vacancies on the roster. The General Fund had 335 vacant positions on May 24, 2019 which represents a significant increase from January's monthly report. The increase reflects, in part, the 59 General Fund positions (30 Public Safety, 20 D.O.T, 5 Elections, and 4 Fleet) included in the FY19 adopted budget that were added to the roster in October 2018, but not reflected on the vacancy report. A vacancy report from the last payroll dated May 24, 2019 to August 29, 2017 can be found below:

	5/24/2019	3/29/2019	1/18/2019	9/28/2018	6/19/2018	3/27/2018	1/30/2018	8/29/2017
General Fund	335	342	277	278	269	283	274	254

Personnel services were also affected by a $4.1 million increase in various benefit expenditure accounts with the largest increase coming from the County's pension contribution. The County's pension contribution is trending higher by $2.7 million as the contribution rate stepped up from 20.14% to 22.58% in FY19 to reach the Actuarial Determined Contribution. In addition, the cost of employee health benefits (medical interfund transfers) are up $927,000 year to date compared to the previous fiscal year. The increases in both medical interfund transfers and pension contributions in FY19 were expected and budgeted accordingly.

Operating expenditures increased $2.3 million from the same period last year. The largest operating expenditure increase comes from medical and dental services amounting to a $2.4 million positive variance. These expenditures are generated from treating inmates detained in the County's detention facility and have shown the ability to fluctuate greatly based on the level of inmates needing treatment on a month to month basis. This object will continue to be monitored to determine if the variance will persist through the end of the year.

Capital expenditures increased $3.3 million when compared to the May FY18. The variance comes mainly from the purchase of police vehicles. To date, the County has purchased nearly $3.2 million in vehicles compared to $1.4 million at the same time last year. The FY19 adopted budget included nearly $8.6 million for replacement vehicles with $5 million dedicated to the Police fleet. The increase was anticipated and budgeted accordingly. The FY18 budget included $3.4 for vehicles; therefore, this variance will continue throughout the year.

Fire District Fund Analysis

Through May 2019, the Fire District Fund's net loss was $5.8M more than the previous year. The total revenues for this fund are in line with the previous year. All expenditure categories have increased over the previous year. The largest increase to expenditures was capital, and the Fire District is continuing to follow their five-year capital plan. The May analysis indicates the Fire District Fund is stable and will finish the year within budget assuming a property tax collection rate of 97% from May through November.

Debt Service Fund Analysis

The Debt Service Fund's 2019 operating results are very similar to the previous year's. The debt service expenditures decreased by $2.1M from 2018 because the County paid off the previous park bonds. The County only has the 2017 Park Bonds outstanding, and their last payment will be in January 1, 2023. Based on the May 2019 analysis, the Debt Service Fund will have a fund balance at the end of fiscal year 2019 that will exceed the 2020 debt service requirements for the County's General Obligation Debt.

Transit Analysis

The Transit Fund's operating results through May of 2019 have generated a positive change in fund balance of $3.2M. The variance is due to the timing of service operator invoices, General Fund subsidy, and grant revenue. However, the Transit's passenger fare revenue has continued to decline from a high of $5.5M in 2011 to low of $2.9M in 2018. This decline, as well as reduction in operating grant revenue has caused the General Fund subsidy for transits operation to increase from $9.9M in 2011 to $12.7M in 2018, plus $1.1 from the Cumberland Special Service District I. These trends are budget to continue in fiscal year 2019.

Hotel Motel Analysis

As of the month ended May 2019 Hotel Motel Tax collections were $634K more than May 2018. Based on the analysis this fund's tax collections will exceed the annual required debt service obligations on the Cobb-Marietta and Exhibit Hall Authority Refunding Revenue Bonds, Series 2013. Those excess funds will be transfers to the General Fund to be used to travel and tourism.

Water Operations Fund Analysis

The Water Operations Fund's change in fund balance through May 2019 was $1.0 more than in 2018. The increase in charges for service of $11.3M was due to the rate increase approved last fall. The personnel, capital, and debt service categories were all down from the previous year. The transfer out increased by $4.0M from the previous year, of that increase $550K was related to the purchase of the Powder Springs Water System. The additional increase in transfers out was due to an increase in the transfers to the Water & Sewer Renewal Fund.

Health Fund Analysis

Although the Health Fund's Total Revenues have increased by $4.7M compared to May of 2018, the medical and dental claims increase by $5.6M. The increase in other Financing Sources and Uses was caused an increase in the County's contribution for medical benefits. The County elected to absorb the increase on employee contributions, so we would expect to see a net loss of fiscal year 2019. This was done to bring the fund balance down slightly in the Health Fund, but the fund's activity will be closely monitored throughout the year.

Parking Deck Fund Analysis

The Parking Deck Fund has been placed on the watch list because in fiscal years 2013 and 2014 it had generated a negative change in fund balance and that decreased its fund balance to a concerning level. To help address the losses the Parking Deck Fund required General Fund subsidy. The Board of Commission has approved a contract with LAZ Parking to manage the decks, and they began managing the decks in May. In May of 2018, the County began charging on evenings and Saturdays. No General Fund subsidy has been sent in 2019 as the County is waiting to see how the operational changes impact the revenues.

E911 Fund Analysis

The E911 Fund has been placed on the watch list because in January of 2019 the State of Georgia took over the collection of the E911 service fees, and the County will closely monitor the remittance of those revenues. Although there is an increase in revenues compared to prior year, the fund is still generating a net loss.
