- Tenant improvement allowance is available to be amortized over the term

Building Features

Building Features

This architecturally and historically significant property was originally home to General Mills Mechanical Division. During WWII the Norden Bomb Site production in the military industrial facility was guarded by the OSS (the precursor to the CIA), the FBI and the Navy. It is the birthplace of Art-A-Whirl which attracts approximately 120,000 people annually and led to the creation of the NE Minneapolis Arts District. Now home to fine artists, creative commercial and industrial businesses and is in a very livable part of the city with exceptional local restaurants. The Building is a culmination of architectural styles including Naval design with steel columns and trusses as well as brick and timber. The buildings were connected and constructed between 1902 and the early 1940's.

- Diamonds Coffee & Sandwich Shoppe
- Bodies by Burgoon Fitness Studio
- MN Climbing Co-Op - Bouldering & Climbing Walls
- Northeast Tool Library
