PEDIATRICS

NEW ORLEANS, LA

October 2019

## General Pediatricians – NYC & Suburbs NewYork-Presbyterian

NewYork-Presbyterian Medical Group is looking for Board Eligible/Board Certified General Pediatricians to join our growing number of outpatient community practices throughout **Brooklyn, Queens and Westchester County, New York**. A variety of locations and schedules make these opportunities ideal for physicians who are seeking a work/life balance. Our practices are located near three of our leading hospitals:

- **NewYork-Presbyterian/ Brooklyn Methodist Hospital** is a 651-bed tertiary facility, academically affiliated with Weill Cornell Medical College which boasts a fully accredited ACGME Pediatric residency program.
- **NewYork-Presbyterian/Queens**, located in Flushing, is a 535-bed tertiary facility and academically affiliated with Weill Cornell Medical College. We are a major teaching site for Pediatric residents of NewYork-Presbyterian/Weill Cornell Medical Center.
- **NewYork-Presbyterian/Hudson Valley Hospital** in Westchester County, NY, is a fully accredited general, 128-bed community hospital with 450 physicians across 62 specialties.

**NewYork-Presbyterian Medical Groups** is part of the physician division of **NewYork-Presbyterian**, recently named one of the top 5 academic facilities in the nation. NewYork-Presbyterian is affiliated with two renowned medical schools, **Columbia University Vagelos College of Physicians and Surgeons** and **Weill Cornell Medicine**. In collaboration with **ColumbiaDoctors** and **Weill Cornell Physicians**, NewYork-Presbyterian Medical Groups provide coordinated care delivery throughout the region and access to leading healthcare services and world-renowned specialists.

We offer a competitive salary and comprehensive benefits package.

**Please forward your CV to:** Please forward CV to: Laura Screeney, FASPR, Director, Physician Recruitment, NewYork-Presbyterian, [las9150@nyp.org](mailto:las9150@nyp.org)

*NewYork-Presbyterian is an equal opportunity employer.*

Please visit us at the 2019 American Academy of Pediatrics National Conference & Exhibition in booth #539 from October 25th – 29th at the New Orleans Ernest N. Morial Convention Center.

Explore the Pros & Cons of **Private Practice** to determine what's right for you.

# Let's Eat! Explore New Orleans Cuisine

Enjoy the delicious cuisine that makes NOLA a favorite destination.

When you think about New Orleans it's easy to conjure up images of soulful blues or live jazz music, and a mysterious voodoo vibe. Yes, New Orleans is all of that and more – rich in history, tradition, and remarkable architecture. New Orleans is also one of the most welcoming places to visit. In fact, the city's motto is “Laissez les bon temps rouler!” (Let the good times roll!)

Tourists and residents alike agree that the friendly, laid-back ambiance in New Orleans (affectionately called NOLA) is palpable. However, NOLA is most famous for its amazing food. Here are just a few of our top picks. *Bon appétit!*

## Café du Monde

The original French Market coffee purveyor, has been roasting and serving coffee since 1862. Their chicory coffee recipe is world famous as are their beignets (pronounced ben-yays). Served as a trio, these square doughnuts are covered with a veritable cloud of powdered sugar (that can become airborne if you breathe too close to them). They claim the secret to their beignets is the cottonseed oil they use to fry them. Whatever the secret ingredient is, they are wonderfully fluffy and delicious! You can also buy their beignet mix and experiment at home to make these sweet treats.

The Café has eight locations and is open 24 hours a day, 364 days a year (closed for Christmas). Cash only.

**800 Decatur Street | New Orleans, LA 70116 | 504-525-4544**  
[www.cafedumonde.com](http://www.cafedumonde.com)

## French Truck Coffee

In this bright yellow and blue building, the limited seating isn't conducive to lingering. That's OK, because you can watch

them roasting their beans through the window! Grab a (cold brew) coffee and your day will be off to an amazing start. Small selection of local pastries as food options, but the coffee is the real focus here.

**2917 Magazine St., Ste. 104 | New Orleans, LA 70130 | 504-298-1115**  
[www.frenchtruckcoffee.com](http://www.frenchtruckcoffee.com)

## Stumptown Coffee

Known as one of the preeminent coffee roasters based in Portland, Oregon, these coffee connoisseurs have established their first beachhead south of the Mason-Dixon line in the Ace Hotel.  
**600 Carondelet Street | New Orleans, LA 70130 | 504-941-9191**  
[www.acehotel.com/neworleans](http://www.acehotel.com/neworleans)

## Hotel Monteleone

This venerable hotel's Carousel Bar is credited with inventing the Vieux Carre cocktail. Even if you don't want to experiment with any of the local specialty drinks, just go for the fun of it – the bar rotates and is a fantastic place to people-watch!

**214 Royal Street | New Orleans, LA 70130 | 504-523-3341**  
[www.hotelmonteleone.com](http://www.hotelmonteleone.com)

## Brennan's New Orleans

An upscale dining experience for those who want Creole cuisine, fine breakfast fare and sinfully delicious desserts (try the Bananas Foster, flambéed tableside). Located in the French Quarter, this restaurant attracts locals and tourists alike. The building has a pink facade, eight dining rooms, a private wine room and a courtyard with an elegant setting especially suited for special occasions.

**417 Royal Street | New Orleans, LA 70130 | 504-525-9711**  
[www.brennansneworleans.com](http://www.brennansneworleans.com)

*New Orleans is rich in history, tradition and remarkable architecture. However, NOLA is most famous for its amazing food.*

### Restaurant R'évolution

Another premier dining spot, Restaurant R'évolution is situated in the Royal Sonesta Hotel on Bourbon Street. This is a must-try stop for foodies. The menu is innovative, imaginative and impressive, with a price tag to match. Cajun/Creole dishes are given a modern twist and include Crawfish Stuffed Flounder Napoleon and the Gulf Shrimp and Grits. R'évolution offers a tasting menu where you can sample a bit of this and that. The bar is known for hand crafting a great Sazerac (New Orleans version of a Cognac or whisky cocktail).

**777 Bienville Street | New Orleans, LA 70130 | 504-533-2277**  
[www.revolutionnola.com](http://www.revolutionnola.com)

### J's Seafood Dock

This no-frills neighborhood market catches, shucks, and serves your oysters fresh from the sea! They also do a great crawfish boil. J's Seafood Dock is open only for lunch and the earlier you go, the better the selection. Once it's caught, cooked, and served, that's it for the day.

**1100 N Peters Street | New Orleans, LA 70116 | 504-523-5757**

### The Munch Factory

This newest addition to the Smithsonian family opened This casual but innovative restaurant has recently moved to a new, larger location in the Lower Garden District and as it continues to expand its space and its menu, it offers some of the best

Cajun/Creole food in NOLA. Their bread pudding in particular receives raves so definitely save room for dessert!

**1901 Sophie Wright Place | New Orleans, LA 70130 | 504-324-5372**  
[www.themunchfactory.net](http://www.themunchfactory.net)

### Café Amelie

The lush courtyard of Café Amelie has been described as one of the most enchanting places to dine in NOLA. The Old-World courtyard with its lovely fountain and verdant plantings sets the stage for a romantic brunch, lunch, or dinner and is a serene oasis just steps away from the bustling French Quarter activity.

**912 Royal Street | New Orleans, LA 70116 | 504-412-8965**  
[www.cafeamelie.com](http://www.cafeamelie.com) ■

**Bassett Healthcare Network**

## Pediatrician

**Bassett Healthcare Network**, a progressive health care system in Cooperstown, NY and major teaching affiliate of Columbia University, is seeking a pediatrician.

### Quick Facts:

- Primary outpatient clinic responsibility is at the Pediatric Clinic
- Pediatric Inpatient Service and Birthing Center at Bassett Medical Center (BMC) are primarily staffed by in-house advanced practice clinicians, and supported by on call pediatricians 24/7/365
- Pediatrician after hours on call at BMC is 1:5, structured as contiguous weeks of on call in rotation (every fifth week of nights and weekend); weekday pediatrician coverage is shared by pediatricians working at Pediatric Clinic in Cooperstown
- Academic appointment at Columbia University College of Physicians and Surgeons
- Opportunity to participate in our award-winning School-based Health Program
- Comprehensive benefit package
- Opportunity to pursue research interests with support from the Bassett Research Institute
- Forbes' 2018 America's Best Mid-Size Employers

**Bassett Healthcare Network** is an integrated health care system that provides care and services to people living in an eight county region covering 5,600 square miles in Central New York. The organization includes six corporately affiliated hospitals, as well as skilled nursing facilities, community and school-based health centers, and health partners in related fields.

# Nailing That Remote Interview

The phone interview and more recently, the video interview, for physician staffing has become customary as part of the initial screening practice. When it comes to securing a permanent or temporary position, your first and only chance to impress a staffing specialist, hiring manager or senior partner is during the phone interview. This is especially true for physician jobs that are in high demand. As is often the case, busy hiring managers choose to narrow down the number of candidates via the phone before investing hours conducting in-person interviews.

As the phone screening interview is the first step towards a position, make full use of this chance by polishing up your phone etiquette. The interviewer is trying to find out more information about you and your background – finding areas where you may respond well or fail. Yes, the onsite interview is the next step, but you can't get there without impressing the interviewer on the other end of the phone, be it a hiring manager, recruiter or owner of a primary care practice.

There are no hard and fast rules regarding how long a phone interview will last. In general, plan for at least 30 minutes, with allotted time for before and after the interview. Give yourself time to gain composure before the call so that you sound calm and confident. Consider the job description carefully and evaluate if you are well matched for the job. Don't try to schedule it on a day and time that is packed with back-to-back appointments.

## Prepare For The Interview

Here are a few tips to help you nail the remote interview:

1. Make sure there is good phone reception and minimal background noise. Choose a quiet and private location to avoid any distracting background noises and unnecessary interruptions. If you have a headset, use it. Ensure that you are able to speak freely and clearly during the interview. Use a tablet or pen and paper to take notes.
2. Be friendly and answer the interviewer's questions simply and honestly and stay on topic. Keep in mind that during the phone interview, the recruiter is envisioning you in the role that you are interviewing for so remember to be professional and stay on point.
3. Prepare questions to ask the interviewer. These questions will help you gather more information about the company, more than you have been able to learn in your research. Additionally, a few informed questions can show the interviewer that you are committed to pursuing the opportunity. Find out what the work environment is like, and if you will fit into the corporate culture. You may also want to know where your career may take you should you should get the job.
4. Record your voice. With a phone interview, the way you communicate is key. To prepare before the actual phone interview, try recording your voice and play back the recording in order to catch things you may want to change. Perhaps you sound flippant, or too many pause fillers come up in your answers such as "um" or "liken" making you sound less enthusiastic than you wanted to.
5. Research the facility before the call. Get as much information as you can about the employer. Relevant information you should find out includes:

*As the phone interview is the first step towards a position, take the opportunity to polish up your phone etiquette.*

- The facility's overall mission, values, and treatment services.
- How much staff does the employer have?
- What are the general demographics of the patients?

Generally, knowing the answers to these questions will help position you to better understand the employer and the opportunity you are applying for. This will also show the employer that you are interested in the facility and in advancing your career.

1. Prepare for questions you are likely to encounter. Standard examples include:

- Please tell us about yourself
- Please explain how you perform under pressure,
- What is your ideal practice setting?
- Are you prepared to relocate for this position?

Don't just think about these answers mentally, write down your answers as you prepare. Make sure that you include past work experiences and examples to support your answers.

2. Prepare for the unexpected question. Sometimes, recruiting managers may throw a curveball question such as, "Describe a decision you made that was a failure. What happened and why?"

Preparing for questions like these will save you from being surprised. And even if the recruiter asks very few questions, you are at least prepared for any surprises.

3. Outline the points you want to make. In addition to preparing answers to common questions, it is just equally important to develop an outline of your strongest points as a candidate. Highlight your clinical skills and experience. Make these points when you talk about your training and expertise and try to include them in answers to a variety of different questions.

Bruce M. Guyant, FASPR, systems director of provider recruitment, Covenant Health, Tewksbury, Massachusetts says that some candidates tend to interrupt the interviewer. He advises candidates to be active listeners and not to talk over the interviewer.

One general question that many candidates want to know is: Is it ok to talk about money? According to Guyant, there was a time when it was not advisable for candidates to discuss compensation or benefits during an interview. However, this has changed. He advises that if the interviewer broaches the subject of money, be ready to at least give some idea of your salary and benefits expectations.

## Video Interviews

Here are some tips to help you ace a video interview.

- Be sure you have a stable wireless connection or use a land line. A stable wireless connection is essential for a smooth video interview. Before the day of the call, do a dry run. This point cannot be emphasized enough. Test your audio and video again right before an interview to ensure everything is working properly. Just because it worked yesterday does not

mean that it's going to work today. Don't risk the headache or embarrassment of technology issues during a conversation with a potential employer. Pick a clear background. Choose a background that allows you to stand out and not be lost. The focus of the interviewer should be on you and what you're saying during the interview. Use a solid wall if you can't find a good backdrop at your office or at home.

- Make sure the room is well lit. Ensure the interviewer can see your face clearly. Try a test video beforehand to make sure the area where you select to do your interview is well-lit. Paul J. Bailo, a digital executive and author of *The Essential Digital Interview Handbook*, says the average room doesn't have enough light for video calls. Most people have just one overhead light shining down on them from the ceiling. This often creates unflattering shadows. His advice is to put one light behind you, one to the right, and another to the left to create a glow around you.

- Camera placement is critical. Position your camera at eye level. The angle is critical. Bailo says, "You don't want the camera looking up your nose, and you don't want the camera looking down at you. The psychology behind it is if I'm looking down at the camera, I'm looking down at the hiring manager, and they feel subservient."

## At The End of The Interview

Always thank the interviewer for their interest and time. Guyant advises, "If you are seriously interested in the job, go ahead and ask for a face-to-face interview."

Above all else, relax and believe in yourself. With some thorough preparation and a little bit of practice, you'll nail that interview! ■

# Private Practice: The Pros & Cons of Self-Employment

Working in a hospital can be very attractive to many physicians: the regular guaranteed salary, the pension contributions, the holiday and sick pay all add up to a compelling package. However, a recent Medscape report found that self-employed physicians are more satisfied than employed physicians (63 percent vs 55 percent). It suggests that employed physicians dislike the lack of autonomy, the limited income potential and limited influence in decision-making.

By contrast, their self-employed counterparts in private practice, enjoy the flexibility and greater autonomy in decision-making, particularly concerning income potential. “Being a solo practitioner and trying to run an efficient practice allows me to not have to see the large numbers of patients on a daily basis that my employed colleagues are faced with,” says J. Scott Litton Jr, MD, a private practitioner. “Patients are scheduled for 15- and 20-minute slots and gaps are purposely left in my schedule to accommodate the same-day call-ins. While this can be a very stressful day-to-day workflow, it is nonetheless very rewarding at the end of the day.”

## Greater Satisfaction in Private Practice

Physicians working in private practice will typically draw a salary on a monthly or quarterly basis based on the practice income after all expenses – such as rent, staff and administrative costs – are paid. This gives a self-employed physician greater control over their income; they can choose to work longer hours to provide an evening or weekend service to their patients, for example. Writing for the American Academy of Family Physicians (AAFP), Peter Rippey, MD, makes the case that, “In

private practice, I also get to decide what hours I work, what procedural services I provide, what my scope of practice is, when I take vacation and who I have assist me.” He also points out that private practice can help to plug holes in medical provision and provide an important service for patients. “Private practices are a vital means for health care access, especially in rural areas (where) the next closest option may be more than an hour away,” he says.

However, Rippey also recognizes that “the uncertainty of the health care landscape as the Patient Protection and Affordable Care Act continues to be implemented – along with the challenges related to payment, electronic health records (EHRs), meaningful use and ICD-10 looming on the horizon – seems to have spurred a mass exodus from private practice to employed positions.” In fact, the AAFP states that more than 85 percent of new physicians are employed.

The significant capital required to set up in private practice and the lack of financial certainty, especially in the first few years, do act as considerable barriers to new physicians who would like the autonomy and flexibility private practice can deliver. Some experts estimate that set-up costs alone can total somewhere in the region of \$70,000 to \$100,000. The American Small Business Administration estimates that 50 percent of new businesses fold within the first five years, this represents a serious financial risk for the would-be self-employed physician

## The Costs Private Practice

Any physician that is considering investing in a private practice

*Self-employed physicians enjoy greater control over their income; they can choose to work longer hours or provide weekend service.*

would be well advised to seek expert financial and legal advice at an early stage.

The costs associated with setting up a private practice must include:

- Malpractice insurance
- Rent or mortgage for premises, as well as any redecorating costs
- Computer, records and accounting systems
- Basic office equipment and furnishings
- Sales and marketing costs, including signage and advertising
- Medical equipment and supplies, although the cost of this can be reduced by opting for “gently used” equipment until the practice is clearing a profit and it can be replaced for new
- Staffing costs
- External consultancy costs, e.g. tax and legal advisors
- Tax liabilities
- Professional development and other professional and medical credentialing costs

By assessing and planning for these complex costs a physician running their own private practice needs to be well versed in finance, human resources and business administration – as well as their own medical specialty.

## Being Your Own Boss

If HR, marketing, finance, facility management, and revenue

cycle management don’t hold much appeal to you as a physician, then private practice is probably not for you – unless you find yourself to be an experienced office manager.

However, Mark A. Rosen, MD, argues that, “if you are entrepreneurial and enjoy the business of medicine, including being a team player, taking risks, having a vision of the future and the marketplace, and negotiating with others, you will enjoy private practice. It isn’t easy, but some of us find it rewarding.”

Not only do self-employed physicians have greater decision-making freedom, they can swiftly respond to events, office dynamics, medical treatments and trends because they are less hampered by bureaucracy than large healthcare groups.

This freedom might be realized in many ways: from sponsoring local sports teams, through to offering a sliding fee scale based on a patient’s ability to pay. Building up a strong relationship with the local community in this way then enables the physician to enjoy a high patient retention rate, boosting profits and morale. You are free to decide which direction you want to take your practice because you are the boss. ■

#### ABOUT THE AUTHOR

**Melanie Grano** is a freelance business writer and 20-year Journalism veteran who regularly contributes to career-based publications, including *ThirdCertainty* and *Computer Times*.

The Department of Pediatrics at the University of Pittsburgh School of Medicine and the Children's Hospital of Pittsburgh are recruiting for a Director of Quality Improvement and Safety in the Division of Newborn Medicine. The candidate must have completed a Neonatal-Perinatal Fellowship program and be Board Certified/Eligible in Neonatal-Perinatal Medicine. We are seeking an individual who will qualify for the academic rank of Associate or Full Professor and one who will maintain accountability for leading the clinical and specified administrative operations related to quality improvement and safety for the division. Additionally, this candidate will work collaboratively with The Wolff Center that supports quality, safety and healthcare innovation throughout the UPMC system ([www.upmc.com/about/why-upmc/quality/about/](http://www.upmc.com/about/why-upmc/quality/about/)). A secondary appointment as a Medical Director at the Wolff Center will also be provided to foster system wide QI initiatives.

Our Division has thirty neonatal faculty. We have a twelve fellow Neonatal-Perinatal medicine fellowship training program. Our core NICUs at UPMC Children's Hospital of Pittsburgh and the Magee Womens Hospital include a 55 bed level-4 unit and a 77 bed level-3 unit with 11,000 deliveries, respectively. In addition to these two sites, we manage five community NICUs with a total of 44 beds and 7,300 deliveries.

Interested candidates should forward a letter of interest and their CV to QI Search Committee: c/o Tom Diacovo, MD, Professor of Pediatrics, University of Pittsburgh School of Medicine, Chief, Division of Newborn Medicine. E-mail: [diacovot@upmc.edu](mailto:diacovot@upmc.edu).

**Children's Hospital**

**Weill Cornell Medicine  
NewYork-Presbyterian/Brooklyn Methodist Hospital  
Pediatric Critical Care/Intensivist**

**Weill Cornell Medicine** in partnership with **NewYork-Presbyterian/Brooklyn Methodist Hospital** is looking for a Board Certified/Board Eligible fellowship trained **Pediatric Intensivist** to be based in Park Slope, Brooklyn.

**NewYork-Presbyterian/ Brooklyn Methodist Hospital** is a 651- bed academic institution, academically affiliated with Weill Cornell Medicine, caring for residents throughout Brooklyn and the surrounding areas. We conduct 5,500 deliveries per year, and we treat 42,000 inpatients as well as 500,000 outpatients annually. Our hospital boasts a Level III NICU, a 6-bed PICU with 400 admissions annually, and a 15-bed pediatric floor with 2,000 admissions per year. Our academic programs include nine graduate medical education residency programs and six fellowship programs. We have a fully accredited ACGME Pediatric residency program comprised of 30 residents and several medical students from Weill Cornell Medicine.

Located in **Park Slope**, one of the most popular neighborhoods in Brooklyn, known for its' excellent public schools, Prospect Park, the Brooklyn Botanical Gardens and trending restaurants and bars. The neighborhood attracts artists, professionals, singles and families, as well as visitors from all over NYC and around the world.

We offer a competitive salary and benefits package. The selected candidate will be an employee of Weill Cornell Medicine and hold an academic appointment at Weill Cornell Medical College. Salary and academic rank will be commensurate with the candidate's experience and credentials.

Please forward CV to: Laura Screeney, FASPR, Director, Physician Recruitment, NewYork-Presbyterian, [las9150@nyp.org](mailto:las9150@nyp.org)

*NewYork-Presbyterian/Weill Cornell Medicine are an affirmative action/equal opportunity employer with a strong institutional commitment to diversity among faculty and staff.*
