The bill defines a public place and encourages any person that owns, operates, or manages a public place to place functional automated external defibrillators (AEDs) in sufficient quantities to ensure reasonable availability for use during perceived sudden cardiac arrest emergencies.

The bill requires any public place to accept any gift, grant, or donation of an AED that meets federal standards.

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters or bold & italic numbers indicate new material to be added to existing statute.
Dashes through the words indicate deletions from existing statute.

The department shall award a \$75,000 contract to a nonprofit organization for the purpose of acquiring and distributing AEDs to public places.

The bill extends good samaritan protections to a variety of persons and entities.

The bill repeals an obsolete provision that encouraged school districts to acquire an AED and moves that provision to article 51 of title 25. The bill also repeals an obsolete provision that provided limited immunity to persons rendering emergency assistance through the use of an AED.
