Summary of Legislation

The bill increases the statutory rate of daily pay for directors and election judges of a Water Conservation and Irrigation District from \$100 to \$150.

Under current law, contracts entered by the directors of a water district between \$250,000 and \$400,000 are non-binding unless ratified by at least one-third of the voters in the district, and contracts in excess of \$400,000 are non-binding unless ratified at an election conducted in the same manner as required when issuing bonds. This bill increases these thresholds to \$400,000 and \$650,000 respectively.

On July 1, 2029, and every five years thereafter, these amounts are increased by the rate of inflation.

Local Government

The bill increases costs for Water and Irrigation Districts for daily compensation of directors and election judges. The bill may also reduce costs for districts by only requiring that certain contracts be ratified in an election when they are for larger amounts of money. This may reduce the frequency of elections and associated costs.

Effective Date

The bill was signed into law by the Governor on April 7, 2025, and takes effect on August 6, 2025, assuming no referendum petition is filed.
