manufacturer of the kratom product has obtained a registration of the kratom product (registration) from the executive director of the department of revenue (executive director). The manufacturer must pay a fee and provide proof of certain certificates and a registration from the federal food and drug administration to receive a registration for the kratom product from the executive director.

The executive director is required to establish an annual fee paid by manufacturers of kratom products that are manufactured, packaged, labeled, or distributed in the state. The fees are credited to the kratom consumer protection cash fund, which is created in **section 2** and may be used by the executive director for the administration and enforcement of state laws regulating kratom.

A manufacturer of a kratom product that is manufactured, packaged, labeled, or distributed in the state without a registration is subject to a civil penalty of:

- No more than \$1,000 for the first violation;
- No more than \$5,000 for the second violation; and
- At least \$5,000 and no more than \$20,000 for a third or subsequent violation.

In the event of a third or subsequent violation, the manufacturer is prohibited from manufacturing or distributing kratom products in the state for 3 years after the date the civil penalty is assessed.

Section 3 prohibits a person from:

- Knowingly preparing, distributing, advertising, selling, or offering to sell a kratom product under certain circumstances;
- Preparing, distributing, advertising, selling, or offering to sell a kratom product that does not clearly and conspicuously set forth certain information on the kratom product's label;
- Displaying or storing kratom products in a retail location in a manner that will allow the products to be accessed by individuals under 21 years of age; or
- Manufacturing, packaging, labeling, or distributing a kratom product that contains synthesized or semi-synthesized kratom alkaloids or has a level of 7-hydroxymitragynine in the alkaloid fraction that is greater than 2% of the alkaloid composition of the product.

A person that conducts these prohibited activities engages in a deceptive trade practice.
