

### **HB 25-1280: ADVANCED LEAK DETECTION TECHNOLOGY RULES**

Prime Sponsors: Fiscal Analyst:

Rep. Story; Smith Matt Bishop, 303-866-4796 matt.bishop@coleg.gov

**Published for:** House Energy & Environment **Version:** Initial Fiscal Note **Drafting number:** LLS 25-0843 **Date:** February 27, 2025

Fiscal note status: The fiscal note reflects the introduced bill.

## **Summary Information**

**Overview.** The bill requires the Public Utilities Commission to adopt rules on natural gas pipeline leak detection by November 1, 2025.

**Types of impacts.** The bill is projected to affect the following areas in FY 2025-26 only:

Minimal State Workload

**Appropriations.** No appropriation is required.

# Table 1 State Fiscal Impacts

	Budget Year	Out Year
Type of Impact	FY 2025-26	FY 2026-27
State Revenue	\$0	\$0
State Expenditures	\$0	\$0
Transferred Funds	\$0	\$0
Change in TABOR Refunds	\$0	\$0
Change in State FTE	0.0 FTE	0.0 FTE

## **Summary of Legislation**

Under current law, the Public Utilities Commission (PUC) in the Department of Regulatory Agencies must adopt rules regarding the use of advanced leak detection technology to meet the need for pipeline safety and protection of the environment. The bill requires the rules to be in place by November 1, 2025.

## **Background**

<u>Senate Bill 21-108</u> required the Pipeline Safety Program's rules to address various gas pipeline safety-related issues, including the use of advanced leak detection technology.

## **State Expenditures**

The bill accelerates a rulemaking deadline which may require adjustments to PUC workflow; however, no change in appropriations is required as this effort is already underway and resources are in place from SB 21-108 to accomplish the effort.

### **Effective Date**

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
