# **Second Regular Session Seventieth General Assembly** STATE OF COLORADO

REVISED

LLS NO. M16-0173.01 Thomas Morris x4218

SJM16-002

### **SENATE SPONSORSHIP**

Jones and Roberts, Baumgardner, Cooke, Hodge, Merrifield

## **HOUSE SPONSORSHIP**

Coram and Vigil, Arndt, Becker K., Buck, Hamner, Mitsch Bush, Singer, Thurlow

### **Senate Committees**

Agriculture, Natural Resources, & Energy

### **House Committees**

Agriculture, Livestock, & Natural Resources

1 2 3	CONCERNING THE NEED FOR CONGRESS TO FUND CATASTROPHIC WILDFIRE RESPONSE COSTS OUTSIDE OF FEDERAL FOREST MANAGEMENT AGENCIES' NORMAL BUDGETS.
1	WHEREAS, There are about 24 million acres of forests and
2	woodlands in Colorado, of which more than two-thirds are managed by
3	the federal government; and
4	WHEREAS, Colorado's forests are increasingly susceptible to
5	forest fires, with an average of about 40,000 acres burned per year from
	2004 through 2007 but an average of more than 140,000 acres burned per
	year from 2008 through 2014; and
	WHEREAS, According to the Insurance Information Institute,
	Colorado has the second highest percentage of households that are at high

**SENATE JOINT MEMORIAL 16-002** 

Final Reading January 26, 2016

1	of extreme fisk from whatnes of any state in the nation, and
2 3 4 5 6	WHEREAS, Under current federal law, money that was originally budgeted to mitigate fire risk, protect and restore watersheds, increase forest health, promote recreational opportunities, and conduct necessary forest planning is diverted to fight fires once the amount budgeted for fire fighting has been depleted; and
7 8 9 10 11	WHEREAS, The United States Forest Service spent only 16% of its annual budget on fire suppression and response in 1995, but recently announced that in 2015, for the first time, it will spend more than half its budget to fight wildfires, and by 2025 it expects to spend 67% of its budget on that task; and
12 13 14 15	WHEREAS, A 2013 study by Headwaters Economics showed that in the 1990s, average federal spending to suppress wildfires was less than \$1 billion annually, but, since 2002, federal spending has risen to over \$3 billion annually and costs are still rising; and
16 17 18 19	WHEREAS, Paying for catastrophic wildfire response should not come at the expense of programs that reduce the risk of wildfires because doing so plainly creates a feedback loop that increases the frequency and severity of catastrophic wildfires; and
20 21 22	WHEREAS, Congress is currently considering several measures that would create alternative ways to pay for catastrophic wildfire response costs; and
23 24 25	WHEREAS, The General Assembly's Water Resources Review Committee and Wildfire Matters Review Committee have approved this Joint Memorial; now, therefore,
26 27	Be It Resolved by the Senate of the Seventieth General Assembly of the State of Colorado, the House of Representatives concurring herein:
28 29 30 31	That Congress should enact laws necessary to protect federal land management agencies' ability to mitigate the risk of catastrophic wildfires and manage the lands within their jurisdiction by funding catastrophic wildfire response in a manner analogous to that used for natural disasters.
32	Be It Further Resolved, That a copy of this Joint Memorial be
