Points to Consider

TABOR/ Excess State Revenues Impact

The March 2025 Office of State Planning and Budgeting (OSPB) revenue forecast projects a TABOR surplus liability of \$642.7 million for FY 2025-26 and \$775.8 million for FY 2026-27 to be refunded to taxpayers out of the General Fund. Legislation that increases non-exempt revenue (such as cash funds) will reduce the TABOR refund from the General Fund.

The Joint Budget Committee has proposed a budget package for FY 2025-26 based on the March 2025 OSPB revenue forecast. The budget package includes \$18.2 million General Fund set aside for other legislation outside of the JBC budget package. This may be used for appropriations, transfers, or increases in TABOR refunds for FY 2025-26.

This bill is estimated to increase cash fund revenues by \$221,103 in FY 2025-26 and by \$213,705 in FY 2026-27, which will reduce the available General Fund in each fiscal year by equal amounts. This bill increases the TABOR refund made out of the General Fund by \$221,103 for FY 2025-26, reducing the \$18.2 million General Fund set aside for FY 2025-26 by the same amount.
