## Summary of Legislation

---

The Radiation Advisory Committee in the Department of Public Health and Environment (CDPHE) is a nine-member committee that provides technical advice on the department's Radiation Control Program. The bill repeals this committee.

## State Expenditures

---

The bill reduces General Fund expenditures in CDPHE by about \$18,000 annually beginning in FY 2025-26 for operating expenses that are no longer required due to the repeal of the committee. Any radiation-specific workload performed by the committee will be absorbed by the Board of Health in the department.

## Effective Date

---

The bill was signed into law by the Governor on April 24, 2025, and took effect on August 6, 2025, assuming no referendum petition is filed.

## State Appropriations

---

For FY 2025-26, the bill decreases required General Fund appropriations to the Department of Public Health and Environment by \$17,584. It is assumed that this reduction will be made in the FY 2025-26 Long Bill, rather than in this bill.
