

1 **SECTION 3. Capital construction appropriation.** (1)(a) The
2 sums in this section, or so much thereof as may be necessary for the
3 purposes specified, are hereby appropriated out of any funds accrued or
4 accruing to the capital construction fund not otherwise appropriated and
5 out of the cash funds and federal funds specified for construction projects
6 at the respective institutions and agencies enumerated in this section.
7 Except as otherwise provided in particular line items of appropriation,
8 pursuant to section 24-75-303 (5)(a)(I), Colorado Revised Statutes, the
9 appropriations made in this section shall become available upon passage
10 and approval of this act and, if any appropriated project is initiated within
11 the fiscal year, the appropriation therefor shall remain available until
12 completion of the project or for a period of three years, whichever comes
13 first, at which time unexpended and unencumbered balances shall revert
14 to the funds from which they were appropriated.

15 (b) For purposes of section 20 of article X of the state constitution
16 and pursuant to section 24-75-302 (1)(b), Colorado Revised Statutes, the
17 unrestricted year-end balance of the capital construction fund for the
18 1991-92 fiscal year shall constitute a reserve. Consequently, any money
19 credited to the capital construction fund constitutes a reserve increase and
20 therefore constitutes state fiscal year spending, as defined in section

1 24-77-102 (17)(a), Colorado Revised Statutes, and any money transferred
2 or expended from the capital construction fund constitutes a reserve
3 transfer or expenditure which is excluded from state fiscal year spending,
4 as defined in section 24-77-102 (17)(b), Colorado Revised Statutes.

5 (c) Money appropriated in this section from the capital
6 construction fund includes sums transferred pursuant to section
7 24-75-302, Colorado Revised Statutes, which sums constitute state fiscal
8 year spending as defined in section 24-77-102 (17)(a), Colorado Revised
9 Statutes.

10 (d) Money appropriated in this section from cash funds shall
11 constitute state fiscal year spending as defined in section 24-77-102 (17)
12 (a), Colorado Revised Statutes.

13 (2) Except as otherwise specifically noted, appropriations from
14 state funds shall be reduced by the amount of any funds received from
15 federal, local, private, or other state sources and not appropriated in this
16 act. This restriction shall not apply to any funds received by a state
17 agency or institution of higher education or the council on the arts from
18 any state or nonstate source for use in the art in public places program.

19 (3) Operating and maintenance costs shall be a major
20 consideration in the design and construction of any project involving

1 renovation.

2 (4) A construction project for which the lowest bid is in excess of
3 the appropriation shall be redesigned to conform to the appropriation and
4 may be commenced if approved under the procedures set forth in this
5 subsection (4). The agency shall submit the redesigned project to the state
6 buildings division of the department of personnel or, for higher education
7 projects, to the Colorado commission on higher education, which shall
8 assure that the redesigned project meets the program needs of the agency
9 and the necessary quality of the building. The state buildings division and
10 the Colorado commission on higher education shall report all such
11 analyses to the joint budget committee and to the capital development
12 committee on a regular basis. If the redesigned project is approved by the
13 state buildings division or the Colorado commission on higher education,
14 the project may commence. If the redesigned project is not approved, it
15 shall not be commenced until further action is taken by the general
16 assembly to reauthorize the project.

17 (5) Expenditures of funds appropriated for capital construction
18 shall be in accord with section 17-24-111, Colorado Revised Statutes,
19 which requires institutions, agencies, and departments to purchase such
20 goods and services as are produced by the division of correctional

1 industries from said division.

2 (6) **Definitions.** As used in this section:

3 (a) "Physical planning" includes all fees for survey and site
4 investigation and architectural and engineering services, but no contract
5 for architectural/engineering services shall commit the state to physical
6 planning expenses greater than those which are provided in the
7 appropriation. No funds appropriated for any other purpose shall be
8 expended for physical planning.

9 (b) "Program plan" or "program planning" relates to a specific
10 project or facility and shall include, but is not limited to, an inventory of
11 amounts and types of space currently available; an analysis of amounts,
12 types, and relative locations of space required for current programs as
13 determined by use of accepted state space standards; an analysis of
14 projected programs and space required; and, if a change in facilities is
15 justified based on analysis, recommendations for demolition, remodeling,
16 or construction, including a detailed budget which relates to a realistic
17 timetable for implementation.
