Legislative Council Staff

Nonpartisan Services for Colorado's Legislature

Measure: Initiative 96 – PROHIBIT GOVERNMENT BANS ON ENERGY SOURCE

Analyst: Matt Bishop, matt.bishop@coleg.gov, 303-866-4796

Date: June 13, 2025

Fiscal Summary of Initiative 96

This fiscal summary, prepared by the nonpartisan Director of Research of the Legislative Council, contains a preliminary assessment of the measure's fiscal impact. A full fiscal impact statement for this initiative is or will be available at leg.colorado.gov/bluebook. This fiscal summary identifies the following impact.

State Expenditures

The measure increases expenditures and workload for state agencies to revise technical assistance to local governments concerning local codes and ordinances related to gas- or propane-powered common-use products and services. The measure may also increase workload and legal services for state agencies implementing the state's greenhouse gas emissions reduction plan.

Local Government

Local governments that currently have or are considering codes that prohibit or restrict common-use products and services such as gas-powered machines and propane-fueled products will have increased costs to conform the codes with state law, and to modify permitting, inspection, and compliance activities.

Economic Impacts

In jurisdictions where these products have or would be restricted, this measure may decrease consumption of alternative sources of energy and related goods. If the continued use of gas- and propane-powered products is less expensive than alternatives, consumers may increase their spending or savings elsewhere in the economy.
