

An Act

HOUSE BILL 25-1335

BY REPRESENTATIVE(S) Sirota and Taggart, Bird, Joseph, McCluskie;
also SENATOR(S) Bridges and Kirkmeyer, Amabile, Kipp.

CONCERNING THE DETERMINATION OF THE EXTENT OF THE AVAILABILITY OF
INCOME TAX CREDITS THAT ARE CONTINGENT UPON THE COMPOUND
ANNUAL GROWTH RATE.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds and declares that:

(a) In the 2024 regular session, the general assembly created the family affordability tax credit and expanded the earned income tax credit;

(b) Both tax credits were unconditionally available for state income tax year 2024 and are only available conditionally, and in conditional amounts, beginning in state income tax year 2025;

(c) Whether the tax credits are available and the amounts of the credits that are available are determined in part by the compound annual growth rate between certain state revenue in state fiscal year 2024-25 and

the corresponding state revenue in the state fiscal year that begins in the relevant state income tax year;

(d) It was the general assembly's intent, in using state fiscal year 2024-25 state revenue as an element of determining the extent to which the tax credits are available, to use a state fiscal year in which state revenue was sufficient not to limit the general assembly's ability to appropriate money from the general fund;

(e) The most recent revenue forecasts prepared by legislative council staff and the office of state planning and budgeting acknowledge a significant possibility that, contrary to the general assembly's intent, using state fiscal year 2024-25 state revenue as an element of determining the extent to which the tax credits are available may limit the general assembly's ability to appropriate money from the general fund;

(f) Using state fiscal year 2024-25 state revenue as forecast in the March 2024 office of state planning and budgeting revenue forecast in determining the extent to which the tax credits are available would not similarly limit the general assembly's ability to appropriate money from the general fund;

(g) This House Bill 25-1335 modifies both tax credits so that whether the tax credits are available and the amounts of the credits that are available are determined based on the compound annual growth rate between certain state revenue in state fiscal year 2024-25 as forecast in the March 2024 office of state planning and budgeting revenue forecast and the corresponding state fiscal year that begins in the relevant state income tax year;

(h) The primary purpose of the modification of these tax credits is to better effectuate the intent of the general assembly in creating the family affordability tax credit and expanding the earned income tax credit;

(i) Any state revenue gain that results from the modification of these tax expenditures is de minimis and incidental to the primary purpose of modifying these tax credits; and

(j) Therefore, consistent with the Colorado supreme court's holding in *TABOR Foundation v. Reg'l Transp. Dist.*, 2018 CO 29, that legislation

that causes only an incidental and de minimis tax revenue increase does not amount to a new tax or a tax policy change that requires prior voter approval pursuant to section 20 of article X of the state constitution, the modifications to these tax credits are not tax policy changes that require voter approval.

SECTION 2. In Colorado Revised Statutes, 39-22-130, **amend** (2)(b)(II)(C) as follows:

39-22-130. Family affordability tax credit - tax preference performance statement - legislative declaration - definitions - repeal.
