## Summary of Legislation

---

Under current law, if state revenue will be insufficient in a current fiscal year to continue the functions of state government, the Governor may, by executive order, end or pause the functions of state agencies for up to three months, and if necessary, extend the order for three additional months. This bill requires the Governor to notify the Joint Budget Committee (JBC) of the executive order, and the JBC to hold a hearing with the governor and the Office of State Planning and Budgeting (OSPB) regarding any planned reduction of state spending in response to either a regular or interim revenue estimate made by OSPB.

Whenever a revenue estimate from the OSPB shows that state spending will dip into the General Fund reserve by specified amounts, the bill requires that the JBC hold a meeting to discuss the Governor's plan for reducing state spending. A meeting is required if a regular or interim revenue forecast shows that:

- state spending will dip into the reserve by the lesser of two percent of current fiscal year General Fund appropriations or 50 percent of the required reserve; or,
- the balance of the reserve will end the year below \$1 billion.

The Governor's plans to reduce General Fund expenditures may not reduce expenditures in the Judicial Department, Legislative Department, or by elective officers other than the Governor.

## State Expenditures

---

The bill requires additional legislative hearings of the JBC in certain fiscal emergencies. The triggers requiring more hearings are assumed to occur infrequently, and when they do occur, will increase legislator per diem and travel costs in the Legislative Department, and workload for the Governor's Office and JBC staff. Any costs are expected to be minimal and do not require a change in appropriations. No impact is expected for other executive branch departments.

## Effective Date

---

The bill takes effect upon signature of the Governor, or upon becoming law without his signature, and applies to revenue estimates and executive orders on or after that date.
