

1                   **SECTION 3. Capital construction appropriation. (1)(a)**

2                   (I) The sums in this section, or so much thereof as may be necessary for  
3                   the purposes specified, are hereby appropriated out of any funds accrued  
4                   or accruing to the capital construction fund not otherwise appropriated  
5                   and out of the cash funds and federal funds specified for construction  
6                   projects at the respective institutions and agencies enumerated in this  
7                   section. Except as otherwise provided in subparagraph (II) of this  
8                   paragraph (a) or in particular line items of appropriation, pursuant to  
9                   section 24-75-303 (5)(a)(I), Colorado Revised Statutes, the appropriations  
10                  made in this section shall become available upon passage and approval  
11                  of this act and, if any appropriated project is initiated within the fiscal  
12                  year, the appropriation therefor shall remain available until completion of  
13                  the project or for a period of three years, whichever comes first, at which  
14                  time unexpended and unencumbered balances shall revert to the funds  
15                  from which they were appropriated.

16                  (II) An appropriation for a lease-purchase payment is for the 2024-  
17                  25 fiscal year only.

18                  (b) For purposes of section 20 of article X of the state constitution  
19                  and pursuant to section 24-75-302 (1)(b), Colorado Revised Statutes, the  
20                  unrestricted year-end balance of the capital construction fund for the

1 1991-92 fiscal year shall constitute a reserve. Consequently, any money  
2 credited to the capital construction fund constitutes a reserve increase and  
3 therefore constitutes state fiscal year spending, as defined in section  
4 24-77-102 (17)(a), Colorado Revised Statutes, and any money transferred  
5 or expended from the capital construction fund constitutes a reserve  
6 transfer or expenditure which is excluded from state fiscal year spending,  
7 as defined in section 24-77-102 (17)(b), Colorado Revised Statutes.

8 (c) Money appropriated in this section from the capital  
9 construction fund includes:

10 (I) Sums transferred pursuant to section 24-75-302, Colorado  
11 Revised Statutes, which sums constitute state fiscal year spending as  
12 defined in section 24-77-102 (17)(a), Colorado Revised Statutes;

13 (II) Eleven million five hundred thousand (\$11,500,000) in interest  
14 earnings in the 2023-24 fiscal year in the capital construction fund  
15 pursuant to section 24-75-302 (1), Colorado Revised Statutes, which sum  
16 does not constitute state fiscal year spending as defined in section  
17 24-77-102 (17)(a), Colorado Revised Statutes.

18 (d) Money appropriated in this section from cash funds shall  
19 constitute state fiscal year spending as defined in section 24-77-102 (17)  
20 (a), Colorado Revised Statutes.

1           (2) Except as otherwise specifically noted, appropriations from  
2 state funds shall be reduced by the amount of any funds received from  
3 federal, local, private, or other state sources and not appropriated in this  
4 act. This restriction shall not apply to any funds received by a state  
5 agency or institution of higher education or the council on the arts from  
6 any state or nonstate source for use in the art in public places program.

7           (3) Operating and maintenance costs shall be a major  
8 consideration in the design and construction of any project involving  
9 renovation.

10           (4) A construction project for which the lowest bid is in excess of  
11 the appropriation shall be redesigned to conform to the appropriation and  
12 may be commenced if approved under the procedures set forth in this  
13 subsection (4). The agency shall submit the redesigned project to the state  
14 buildings division of the department of personnel or, for higher education  
15 projects, to the Colorado commission on higher education, which shall  
16 assure that the redesigned project meets the program needs of the agency  
17 and the necessary quality of the building. The state buildings division and  
18 the Colorado commission on higher education shall report all such  
19 analyses to the joint budget committee and to the capital development  
20 committee on a regular basis. If the redesigned project is approved by the

1 state buildings division or the Colorado commission on higher education,  
2 the project may commence. If the redesigned project is not approved, it  
3 shall not be commenced until further action is taken by the general  
4 assembly to reauthorize the project.

5 (5) Expenditures of funds appropriated for capital construction  
6 shall be in accord with section 17-24-111, Colorado Revised Statutes,  
7 which requires institutions, agencies, and departments to purchase such  
8 goods and services as are produced by the division of correctional  
9 industries from said division.

10 (6) **Definitions.** As used in this section:

11 (a) "Physical planning" includes all fees for survey and site  
12 investigation and architectural and engineering services, but no contract  
13 for architectural/engineering services shall commit the state to physical  
14 planning expenses greater than those which are provided in the  
15 appropriation. No funds appropriated for any other purpose shall be  
16 expended for physical planning.

17 (b) "Program plan" or "program planning" relates to a specific  
18 project or facility and shall include, but is not limited to, an inventory of  
19 amounts and types of space currently available; an analysis of amounts,  
20 types, and relative locations of space required for current programs as

1       determined by use of accepted state space standards; an analysis of  
2       projected programs and space required; and, if a change in facilities is  
3       justified based on analysis, recommendations for demolition, remodeling,  
4       or construction, including a detailed budget which relates to a realistic  
5       timetable for implementation.
