## Summary of Legislation

The bill continues the Primary Care Payment Reform Collaborative (the collaborative) by the Department of Regulatory agencies (DORA) for seven years, extending the program's repeal date from September 1, 2025, to September 1, 2032.

## Continuing Program Impacts

Based on the [Sunset Review](#) of the collaborative, DORA is expected to have expenditures of \$50,000 and 0.3 FTE to operate the collaborative, paid from the Division of Insurance Cash Fund. If this bill is enacted, current expenditures will continue for the program starting in FY 2026-27.

In addition, by extending the collaborative, the bill continues a diversion of \$50,000 per year from the General Fund to the Division of Insurance Cash Fund. This revenue diversion occurs because the bill increases costs in the Division of Insurance in DORA, which is funded with premium tax revenue that would otherwise be credited to the General Fund.

If this bill is not enacted, the program will end one year after its repeal date on September 1, 2026, following a wind-down period. If allowed to repeal, state expenditures and diversions will decrease starting in FY 2026-27 by the amounts shown in Table 1.
