Summary of Legislation

The bill incorporates the federal Uniform Code of Military Justice into the Colorado Code of Military Justice around punishable offenses, and the statute of limitations. In addition, the bill applies the state code to members of the state military force, except when ordered to active federal service, clarifies a commanding officer's authority to impose non-judicial punishment, updates procedures around courts-martial, repeals courts of inquiry from the state code, and requires the state military forces to defer felony prosecution to the district attorney when there is concurrent civilian and military jurisdiction.

State Expenditures

The bill minimally increases state expenditures in two ways. First, to the extent policies require updating for the state military force, workload to the Department of Military and Veterans Affairs will increase. Second, to the extent the bill leads to more criminal cases in state court, rather than military court, workload to the Judicial Department will increase. The fiscal note assumes additional cases will be minimal and any workload from the bill will be minimal.

Local Government

Similar to the state, to the extent the bill increases the number of cases prosecuted by district attorneys, workload will increase. This workload is assumed to be minimal.

Effective Date

The bill was signed into law by the Governor on June 3, 2025, and takes effect September 1, 2025, assuming no referendum petition is filed. It applies to offenses committed on or after this date.
