**Bill Summary**

*(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)*

In accordance with the "Keep Colorado Wild Pass Act", a person registering their motor vehicle in Colorado may, at the time of registration, elect to purchase a keep Colorado wild pass as an annual state parks and public lands pass for their motor vehicle. The keep Colorado wild pass provides the person access by car, bike, or foot to any Colorado state park or other participating public land for the duration of

the vehicle's registration period. The option to purchase a keep Colorado wild pass is offered at the time of registration of any passenger motor vehicle, light-weight truck, motorcycle, or recreational vehicle. Currently, the cost for a keep Colorado wild pass is \$29.

All money collected from the purchase and sale of the keep Colorado wild pass is remitted to the department of revenue, which in turn transmits the money, minus administrative costs, to the state treasurer.

By statute, the first \$36 million collected from the keep Colorado wild pass is allocated to the following 3 funds:

- \$32.5 million to the parks and outdoor recreation cash fund for state parks maintenance, staffing, and resources;
- \$2.5 million to the backcountry search and rescue fund, in furtherance of the goal of supporting Colorado's search and rescue volunteers who respond to backcountry emergencies and who develop educational programs and campaigns to promote backcountry safety; and
- \$1 million to the Colorado avalanche information center fund, in furtherance of the goal of protecting winter recreationists by supporting backcountry avalanche safety and awareness.

The amounts allocated to these 3 funds are adjusted annually based on changes to the United States department of labor's bureau of labor statistics consumer price index for Denver-Aurora-Lakewood for all items and all urban consumers.

After allocating the first \$36 million to the 3 funds, as specified above, statute currently directs the state treasurer to credit any remaining money collected from the purchase and sale of the keep Colorado wild pass as follows:

- One-half of any remaining money is credited to the wildlife cash fund; and
- One-half of any remaining money is credited to the parks and outdoor recreation cash fund, in furtherance of the goals of:
  - Building and maintaining new state parks on a regular basis in partnership with local governments, conservationists, recreationists, and other land management agencies; and
  - Funding Colorado regional outdoor partnerships to support community-driven conservation and recreation planning and projects.

The bill modifies how, after the allocation of the first \$36 million, any remaining money collected from the purchase and sale of the keep Colorado wild pass is allocated. The bill creates the state park and state wildlife area access cash fund (fund) for the purpose of supporting local

governments in efforts to improve roads and other infrastructure that provide local access to state parks and state wildlife areas accessed from within a local government's boundary (local access). The bill directs the entirety of any remaining money to the fund, instead of dividing and allocating the remaining money between the wildlife cash fund and the parks and outdoor recreation cash fund.

The bill also creates the state park and state wildlife area access grant program (grant program). The bill requires the division of local government (division) in the department of local affairs to administer the grant program and to award grants to local governments that apply for a grant to improve local access. Money in the fund is used to pay the grant awards.

The bill preserves the current allocation of the first \$36 million, adjusted annually, to the parks and outdoor recreation cash fund, the backcountry search and rescue fund, and the Colorado avalanche information center fund. The bill also specifies that, if no applications for local access grants are received by the division by December 31, 2029, and by December 31 for each year thereafter, half of the remaining money collected from the purchase and sale of the keep Colorado wild pass is transferred to the wildlife cash fund and half is transferred to the parks and outdoor recreation cash fund in furtherance of specific goals.

1       *Be it enacted by the General Assembly of the State of Colorado:*

2           **SECTION 1. Short title.** The short title of this act is the "State  
3           Park and State Wildlife Area Access Funding Act".

4           **SECTION 2. Legislative declaration.** (1) The general assembly  
5           finds and declares that:

6           (a) Colorado's great outdoors and wildlife are among the state's  
7           treasured resources, enriching Coloradans' quality of life;

8           (b) All people should have unhindered access to the unparalleled  
9           outdoor recreation opportunities offered by Colorado's state parks and  
10           state wildlife areas, regardless of the mode of transportation used to  
11           access a state park or state wildlife area;

12           (c) Despite growth in outdoor recreation, many Colorado families  
13           lack access to the experience, equipment, off-road vehicles, and resources

1 necessary to visit our state parks and state wildlife areas;

2 (d) While outdoor recreation brings prosperity to the state and its  
3 residents through tourism and the collection of sales tax, it also places an  
4 unfunded mandate on the counties in which state parks and state wildlife  
5 areas are located;

6 (e) To provide equitable infrastructure access and to reduce  
7 barriers for those families with limited resources to access outdoor  
8 recreation, counties need support for constructing and maintaining roads  
9 that access state parks and state wildlife areas;

10 (f) Numerous factors contribute to the need for the construction  
11 and maintenance of roads that provide local access to state parks and state  
12 wildlife areas from within a county's boundaries, including:

13 (I) The current surfaces of roads that provide access to state parks  
14 and state wildlife areas were not designed or constructed to withstand the  
15 high volume of traffic using these roads or the heavy weight of trucks,  
16 campers, towed trailers, and boats;

17 (II) State sales tax is not a source of revenue for counties;

18 (III) Funding for county roads is based on the amount of money  
19 in the highway users tax fund, established pursuant to section 43-4-201,  
20 Colorado Revised Statutes;

21 (IV) For many counties in which state parks and state wildlife  
22 areas are located, the county population is significantly lower than the  
23 number of visitors who access the state parks and state wildlife areas  
24 located in the county's boundaries each year; and

25 (V) The remote location of state parks and state wildlife areas  
26 compounds the challenges and costs associated with constructing and  
27 maintaining roads and other infrastructure needed for accessing those

1 state parks and state wildlife areas;

2 (g) The rapid increase in demand for outdoor recreation is  
3 challenging the ability of local governments to maintain the roads and  
4 other infrastructure needed to provide access to all individuals and  
5 families who want to visit a state park or state wildlife area, regardless of  
6 the type of vehicle the family can afford;

7 (h) Despite tremendous growth in outdoor recreation, existing  
8 funding to support the variety of ways Colorado families access our state  
9 parks and state wildlife areas is insufficient. This leads to increased  
10 barriers for families and can deter visitors from accessing state parks and  
11 state wildlife areas.

12 (i) Local governments share the access goals of the state and rely  
13 on a financial partnership with the state and other partners to help meet  
14 the demand and ensure that Colorado's state parks and state wildlife areas  
15 are accessible to all; and

16 (j) A key objective of this "State Park and State Wildlife Area  
17 Access Funding Act" is to ensure that all state parks and state wildlife  
18 areas provide welcoming and equitable access to all park pass purchasers  
19 and to all visitors of state parks and state wildlife areas.
