**Current Appropriations Clause in Bill**

The bill contains an appropriation clause that replaces General Fund appropriations for services in the departments of Local Affairs, Corrections, and Human Services with General Fund appropriations in the Department of Health Care Policy and Financing (HCPF). Similarly, the appropriation clause moves some of the appropriations from the Affordable Housing and Support Fund for tenancy support services in Local Affairs to HCPF.

These financing changes will draw a projected \$14,555,545 in additional federal funds. Of the new federal funds, \$6,102,194 will expand tenancy support services and \$8,453,351 generates General Fund savings that get deposited in the two new reinvestment funds created by the bill. The federal waiver requires the savings be used for related administrative expenses and to expand and enhance similar services. Expanding and enhancing similar services will begin next year, when more information on the actual savings is available.

HCPF will pay Local Affairs, Corrections, and Human Services for providing health-related social needs and reentry services and those payments appear in the appropriations clause as reappropriated funds in the receiving department. Providers for tenancy support services will bill HCPF and receive payments directly from HCPF.

Finally, the bill makes appropriations from the two reinvestment cash funds, along with projected matching federal funds, to HCPF for related administrative expenses. Some of these administrative funds get reappropriated to the departments providing the services.

The table below summarizes the appropriation changes by department.
