Beginning January 1, 2026, for claims that must be reprocessed as a result of updating the provider rates, the bill requires a managed care organization to issue payment to a contracted provider within one year after the provider rate is updated.

The bill requires the state department to include in each new contract with, or renewal of a contract with, a managed care entity (MCE) a provision requiring the MCE to submit to the state department, on an annual basis, the amount the MCE is paid and the MCE's medical loss ratio. The state department is required to publish this information on the state department's website on an annual basis.

The bill prohibits the state department from imposing signature requirements on a physician or practitioner certifying a medicaid member's (member) plan of care that involves physical therapy or occupational therapy.

The bill prevents a member receiving home- and community-based services from losing the services the member currently receives if the member's disability and need for services have not changed in the preceding 3 years.
