## HB 25-1096: AUTOMATED PERMITS FOR CLEAN ENERGY TECHNOLOGY

**Prime Sponsors:**
Rep. Smith; Brown
Sen. Ball; Kipp

**Fiscal Analyst:**
Matt Bishop, 303-866-4796
matt.bishop@coleg.gov

**Bill Outcome:** Signed into Law
**Drafting number:** LLS 25-0666

**Version:** Final Fiscal Note
**Date:** August 6, 2025

**Fiscal note status:** The final fiscal note reflects the enacted bill.

## Summary Information

**Overview.** The bill requires certain local governments to use automated permitting software for residential solar energy systems.

**Types of impacts.** The bill is projected to affect the following areas on an ongoing basis:

- Minimal State Workload
- Local Government

**Appropriations.** No appropriation is required.

**Table 1**
**State Fiscal Impacts**

| Type of Impact | Budget Year FY 2025-26 | Out Year FY 2026-27 |
|---|---|---|
| State Revenue (Cash Funds) | $0 | $0 |
| State Expenditures (Cash Funds) | $0 | $0 |
| Transferred Funds | $0 | $0 |
| Change in TABOR Refunds | $0 | $0 |
| Change in State FTE | 0.0 FTE | 0.0 FTE |

# HB 25-1096

## Summary of Legislation

The bill removes a restriction on when local governments can receive grants from the Automated Permit Processing For Solar (APPS) Grant Program in the Colorado Energy Office (CEO). It also reauthorizes CEO's use of funds for its administrative expenses.

## State Expenditures

The bill increases workload in the Colorado Energy Office, whose costs are paid from the Streamlined Solar Permitting and Inspection Cash Fund, to the extent that more local governments apply for grants. This can be accomplished within existing appropriations.

## Local Government

In FY 2025-26, the bill increases revenue for jurisdictions awarded grants from CEO. Beginning in FY 2026-27, workload may decrease in local governments based on the number of permits approved via software instead of manual review.

## Effective Date

The bill was signed into law by the Governor on May 28, 2025, and took effect on August 6, 2025.

## State Appropriations

The bill results in no net change in appropriations for the Colorado Energy Office, as the balance of the Streamlined Solar Permitting and Inspection Cash Fund is typically appropriated to the office. If the bill results in more grants awarded in FY 2025-26, it will decrease appropriations in future years.
