HOUSE BILL 25-1188

BY REPRESENTATIVE(S) Froelich, Bacon, Boesenecker, Brown, Camacho, Clifford, Duran, Gilchrist, Hamrick, Lindsay, Mabrey, Rutinel, Rydin, Story, Willford, Woodrow;  
also SENATOR(S) Michaelson Jenet and Amabile, Ball, Cutter, Daugherty, Gonzales J., Jodeh, Kipp, Sullivan, Winter F.

CONCERNING THE RECOMMENDATIONS OF THE MANDATORY REPORTER TASK FORCE, AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION.

*Be it enacted by the General Assembly of the State of Colorado:*

**SECTION 1. Legislative declaration.** (1) (a) The general assembly finds that complete reporting of known or suspected child abuse or neglect is a matter of public concern and that it is the intent of the general assembly to protect the best interests of children in this state and to offer protective services in order to prevent any further harm to children suffering from abuse.

(b) The general assembly further finds that requiring people to report known or suspected child abuse or neglect impacts the people reporting, as well as children and families who are the subjects of the

reports. As a result of implicit bias, under-resourced communities, communities of color, and persons with disabilities are disproportionately impacted by the mandatory reporting system.

(2) (a) To address these impacts and additional issues, the general assembly established the mandatory reporting task force in 2022, which was charged with making findings and recommendations to clarify the law and recommending changes to mandatory reporting procedures and trainings.

(b) The task force found that:

(I) Colorado's mandatory reporting law and system for making reports disproportionately impacts families of color, people with disabilities, and under-resourced communities, resulting in some contacts with child protection services that are unnecessary;

(II) Colorado's mandatory reporting law requires mandatory reporters to report circumstances that may not involve the safety of children;

(III) By forcing mandatory reporters to report all concerns through the child abuse hotline, Colorado's mandatory reporting law requires professionals to engage child protection services with families that do not require their services;

(IV) Cases that do not involve concerns of child safety may not get adequate attention because the system is overwhelmed by reports. A lack of training perpetuates this issue.

(V) Colorado's mandatory reporting law may hinder certain professionals from forming trusted relationships with children and families.

(c) To address these issues, the task force issued 24 recommendations to the general assembly. The task force's recommendations are intended to provide a comprehensive approach to improving the mandatory reporting system, including clarifying the law, standardizing practices and training, and creating alternative reporting methods.

(d) Therefore, the general assembly finds and declares that the first step in comprehensively improving the mandatory reporting system is to

implement the task force's recommendations to address clarity in the law. These clarifications will serve as the foundation for further improvements to the mandatory reporting system.

(e) The general assembly further declares that the task force's continuum of recommendations must be implemented in whole to effectively serve children and families.
