Summary of Legislation

The bill requires that the Colorado Department of Education (CDE) develop a streamlined format for school and district improvement plans that consolidates state, federal, and grant reporting requirements, and allows a school or district to attach a locally developed action portion of the plan. The CDE must maintain a centralized system for plan submissions. On or before August 1, 2025, and regularly thereafter, the CDE must collect user feedback to assess how much the streamlined format is used, whether it is helpful, and how to use collected feedback to improve the centralized system.

State Expenditures

The bill's requirements are aligned with efforts already being implemented by the CDE to allow more streamlined submission of improvement plans under the state accountability system. The department will have a minimal workload increase to collect user feedback, evaluate the frequency and volume of plans submitted through the alternative method, and develop recommendations and actions to improve the centralized system. These efforts do not require any change in appropriations.

Effective Date

The bill was signed into law by the Governor on April 30, 2025, and takes effect on August 6, 2025, assuming no referendum petition is filed.
