Published for: House Business, Labor, and Tech.

Drafting number: LLS 25-1045

Version: Initial Fiscal Note

Date: April 14, 2025

Fiscal note status: This fiscal note reflects the introduced bill.

Summary Information

Overview. The bill exempts quantum computing equipment from right-to-repair requirements.

No fiscal impact. The bill has no impact on state or local government.

Appropriations. No appropriation is required.

Table 1
State Fiscal Impacts

Type of Impact	Budget Year FY 2025-26	Out Year FY 2026-27
State Revenue	\$0	\$0
State Expenditures	\$0	\$0
Transferred Funds	\$0	\$0
Change in TABOR Refunds	\$0	\$0
Change in State FTE	0.0 FTE	0.0 FTE

Summary of Legislation

Current law requires a manufacturer of certain digital electronic equipment, agricultural equipment, and powered wheelchairs to provide documentation, software, data, and other tools upon request to equipment owners and independent repair providers to facilitate the equipment's repair. The bill exempts quantum computing and sensing devices from these right-to-repair provisions.

Assessment of No Fiscal Assessment

Right-to-repair law was expanded to digital electronic equipment under [House Bill 24-1121](#), which goes into effect on January 1, 2026. Given that HB 24-1121 has not been implemented, and that HB 25-1330 exempts a narrow subset of digital electronic equipment, the bill will not change state or local government revenue or expenditures and is assessed as having no fiscal impact.

Effective Date

The bill takes effect January 1, 2026, assuming no referendum petition is filed.
