

We need more DMV offices and more appointments available to issue you a driver's license. Currently, only 3 offices comply with the law.

In addition to the Individual Taxpayer Identification Number (ITIN), immigrants without status who already have a Social Security Number need to access a driver's license too.

We want that renewing to make renewing a driver's license less tedious.

And in case you did not know, as soon 60,000 driver's licenses are issued, the number of DMV offices providing this service, will be reduce to one. We cannot stop at 60,000!
