Subject: Ballot Proposals

Dear Natalie,

I would like to propose a ballot measure to terminate the Air-care Colorado emissions program.

I would also like to propose a ballot measure to terminate the Colorado Department of Motor Vehicle front license plate law.

email john@drive-radio.com

P.s- Just for info we are planning another ballot measure for the next session to create a state-wide vehicle safety inspection program to use and replace the Air-care Colorado emissions program and facilities.
