HB 25-1021: TAX INCENTIVES FOR EMPLOYEE-OWNED BUSINESSES

Prime Sponsors:

Rep. Lindstedt; Taggart

Sen. Bridges

Fiscal Analyst:

Louis Pino, 303-866-3556

louis.pino@coleg.gov

Published for: House Business Affairs & Labor

Drafting number: LLS 25-0573

Version: Initial Fiscal Note

Date: February 13, 2025

Fiscal note status: This fiscal note reflects the introduced bill.

Summary Information

Overview. The bill creates two state income tax deductions, a new income tax credit, and also extends and modifies the current Employee Ownership Tax Credit.

Types of impacts. The bill is projected to affect the following areas through FY 2038-39:

- State Revenue
- State Expenditures
- TABOR Refunds

Appropriations. No appropriation is required.

Table 1
State Fiscal Impacts

Type of Impact ¹	Budget Year FY 2025-26	Out Year FY 2026-27	Out Year FY 2027-28
State Revenue	\$0	at least -\$250,500	at least -\$2,001,000
State Expenditures	\$0	\$104,684	\$302,280
Transferred Funds	\$0	\$0	\$0
Change in TABOR Refunds	\$0	at least -\$250,500	not estimated
Change in State FTE	0.0 FTE	0.5 FTE	2.0 FTE

¹ Fund sources for these impacts are shown in the table below.

Table 1A
State Revenue

Fund Source	Budget Year FY 2025-26	Out Year FY 2026-27	Out Year FY 2027-28
General Fund	\$0	at least -\$250,500	at least -\$2,001,000
Cash Funds	\$0	\$0	\$0
Total Revenue	\$0	at least -\$250,500	at least -\$2,001,000

Cash Funds	\$0	\$0	\$0
Federal Funds	\$0	\$0	\$0
Centrally Appropriated	\$0	\$10,919	\$43,675
Total Expenditures	\$0	\$104,684	\$302,280
Total FTE	0.0 FTE	0.5 FTE	2.0 FTE

Summary of Legislation

The bill creates two state income tax deductions, a new income tax credit, and also extends and modifies the current Employee Ownership Tax Credit within the Office of Economic Development and International Trade (OEDIT). Specifically, the bill:

- provides an income tax deduction for business owners that establish a qualified employee-owned business. The amount of the deduction is equal to any qualified capital gains realized during the conversion of the business. The income tax deduction is available from tax years 2027 through 2037;
- allows worker-owned cooperatives to deduct from their Colorado taxable income an amount equal to their federal taxable income up to one million dollars. The income tax deduction is available from tax years 2027 through 2037;
- creates a refundable state income tax credit for nonprofit entities that assist in converting a qualified business to an employee-owned business. The amount of the credit is equal to 70 percent of the support costs but not to exceed \$167,000 per tax year. The credit is available for tax years 2027 through 2037; and

- extends the current Employee Ownership Tax Credit through tax year 2037. Under the bill, OEDIT will be allowed to reserve \$3 million in tax credits each tax year from 2027 through 2031, and \$4 million in tax credits for each tax year from 2032 through 2037.

Finally, the bill increases the amount of the credit to 75 percent of the conversion costs for a business that converts to a worker-owned cooperative, an employee stock ownership plan, or an employee ownership trust.

Background

Employee Ownership Tax Credit

[House Bill 21-1311](#) created the Employee Ownership Tax Credit. The current state tax credit is equal to 50 percent of the conversion costs for a business that converts to a worker-owned cooperative, an employee stock ownership plan, or an employee ownership trust. The income tax credit is fully refundable.

[House Bill 23-1081](#) made changes to the credit. Specifically, the bill:

- increased the cap for converting a qualified business to a worker-owned cooperative or employee from \$25,000 to \$40,000;
- increased the cap for converting a qualified business to an employee stock ownership plan from \$100,000 to \$150,000;
- expanded the tax credit to a qualified business converting to or expanding an alternate equity structure, a form of employee ownership where an employer grants to employees an employee stock ownership plan, LLC membership, phantom stock, profit interest, profit sharing, restricted stock, stock appreciation right, stock option, or synthetic equity; and
- specified that a qualified business or qualified employee-owned business may apply for and claim only one credit for the conversion or expansion costs per tax year.

The income tax credit is available through tax year 2026 under current law. OEDIT is responsible for administering the program, including advertising and reporting requirements and reserving tax credits for qualified businesses. The maximum amount of tax credits that OEDIT may certify each tax year is \$10 million dollars.

In FY 2021-22, the program received 12 applications and certified \$403,750 in credits. In FY 2022-23, OEDIT certified just over \$1 million in credits to 37 applicants. Finally, OEDIT certified approximately \$1.6 million credits to 12 applicants in FY 2023-24, the latest data available.

Assumptions

Employee Ownership Tax Credit

For the extension of the Employee Ownership Tax Credit, the fiscal note assumes OEDIT will reserve the maximum amount of credit certificates allowed each year under the bill. As shown in the background section, the amount of reserved certificates for qualified businesses has been steadily increasing each year, consistent with other relatively new state income tax credit programs. The fiscal note assumes with this standard growth for the state income tax credit, and in addition to providing a tax incentive for entities to market and outreach to businesses to convert to an employee owned business structure that the maximum amount of reserved credits will be met each tax year.

Qualified Support Entity Tax Credit

As of the date of this fiscal note, three nonprofit entities have been identified as qualifying for the new Qualified Support Entity income tax credit. The fiscal note assumes these entities will claim the maximum \$175,000 allowed each tax year.

Qualifying Capital Gain Subtraction

As of the date of this fiscal note, the amount of capital gains from business owners that convert to an employee owned business is unknown. To the extent a taxpayer claims this subtraction, it will reduce their Colorado taxable income, thus decreasing state revenue.

Worker-Owned Cooperative Subtraction

It is estimated that approximately 32 entities have formed a worker-owned cooperative business structure in Colorado. As of the date of this fiscal note, the amount of federal taxable income that would qualify for the subtraction is unknown. To the extent a taxpayer claims this subtraction, it will reduce their Colorado taxable income, thus decreasing state revenue.

State Revenue

The bill is estimated to reduce General Fund revenue by at least \$41.5 million from FY 2026-27 through FY 2037-38. Based on the assumptions above, General Fund revenue will decrease by at least \$250,500 in FY 2026-27 (half-year impact), at least \$2.0 million in FY 2027-28, at least \$3.5 million in FY 2028-29, and steadily increase to approximately \$4.5 million through FY 2035-36 with a half-year impact in FY 2036-37. Most of the revenue decrease is attributable to extension of the current law credit beginning in tax year 2027, with a smaller decrease from the new credit for qualified support entities. The bill decreases income tax revenue, which is subject to TABOR.

State Expenditures

The bill increases state expenditures by \$104,684 in FY 2026-27 and \$302,280 in FY 2027-28. These costs will be incurred by OEDIT and the Department of Revenue (DOR), paid from the General Fund. Costs are shown in Tables 2 through 2B and described in the sections below. Costs in OEDIT are through FY 2038-39, when the credit is set to expire, while most of DOR's costs are one-time.

Table 2
State Expenditures
All Departments

Department	Budget Year FY 2025-26	Out Year FY 2026-27	Out Year FY 2027-28
Office of Economic Development	\$0	\$104,684	\$255,363
Department of Revenue	\$0	\$0	\$46,917
Total Costs	\$0	\$104,684	\$302,280

Office of Economic Development

The bill increases expenditures in OEDIT by \$104,684 in FY 2026-27 and \$255,363 per year beginning in FY 2027-28 through at least FY 2038-39 to administer and monitor the income tax credits

Staff

Beginning in FY 2026-27, OEDIT requires 2.0 FTE program managers to implement the bill. This includes 1.0 FTE in the Employee Ownership Office to administer the tax credit, and 1.0 FTE to the Business Funding and Incentives Division to administer the reporting, compliance, and interactions with the DOR. Staff costs for the Employee Ownership Office are prorated for a January start date in FY 2026-27, while staff costs for the Business Funding and Incentives Division are assumed to begin in FY 2027-28. Standard operating and capital outlay costs are included.

Computer Programming

One-time computer programming is required to administer the tax credit, estimated at a cost of \$35,840. This assumes 160 hours of programming at \$224 per hour.

Table 2A
State Expenditures
Office of Economic Development

Cost Component	Budget Year FY 2025-26	Out Year FY 2026-27	Out Year FY 2027-28
Personal Services	\$0	\$50,615	\$202,458
Operating Expenses	\$0	\$640	\$2,560
Capital Outlay Costs	\$0	\$6,670	\$6,670
Computer Programming	\$0	\$35,840	\$0
Centrally Appropriated Costs	\$0	\$10,919	\$43,675
Total Costs	\$0	\$104,684	\$255,363
Total FTE	0.0 FTE	0.5 FTE	2.0 FTE

Department of Revenue

Beginning in FY 2027-28, expenditures will increase in DOR to update and test GenTax computer programming, provide data reporting, and make changes to state income tax forms. DOR expenditures are paid from the General Fund.

Computer Programming and Testing

For FY 2027-28 only, the bill requires expenditures of \$34,804 to program, test, and update database fields in the DOR's GenTax software system. Programming costs are estimated at \$11,819, representing 51 hours of contract programming at a rate of \$231.75 per hour. Costs for testing at the department include \$15,785 for 451 hours of innovation, strategy, and delivery programming support at a rate of \$35 per hour, and \$7,200 for 225 hours of user acceptance testing at a rate of \$32 per hour.

Data Reporting

Beginning in FY 2027-28, expenditures in the Office of Research and Analysis in the DOR are required for changes in the related GenTax reports so that the department can access and document tax statistics related to the new tax policy. These costs are estimated at \$8,778, representing 231 hours for data management and reporting at \$38 per hour and are ongoing through FY 2037-38.

Document Management and Tax Form Changes

For FY 2027-28 only, the bill requires changes to five tax forms at a cost of \$3,335. These costs also include testing of the scan system. For FY 2027-28, expenditures for form changes occur in the Department of Personnel and Administration using reappropriated DOR funds.

Table 2B
State Expenditures
Department of Revenue

Cost Component	Budget Year FY 2025-26	Out Year FY 2026-27	Out Year FY 2027-28
GenTax Programming and Testing	\$0	\$0	\$34,804
Data Reporting	\$0	\$0	\$8,778
Document Management and Tax Form Changes	\$0	\$0	\$3,335
Total Costs	\$0	\$0	\$43,582

Centrally Appropriated Costs

Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. These costs, which include employee insurance and supplemental employee retirement payments, are shown in the expenditure tables above.

TABOR Refunds

The bill is expected to decrease the amount of state revenue required to be refunded to taxpayers by the amounts shown in the State Revenue section above. This estimate assumes the December 2024 LCS revenue forecast. Because TABOR refunds are paid from the General Fund, decreased General Fund revenue will lower the TABOR refund obligation, but result in no net change to the amount of General Fund otherwise available to spend or save. A forecast of state revenue subject to TABOR is not available beyond FY 2026-27.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
