RE: BioScience Laboratories, LLC Name Change

To Whom It May Concern,

This letter is to inform customers and vendors of the following changes to our organization:

BIOSCIENCE LABORATORIES, LLC CHANGES ITS NAME TO NELSON LABORATORIES BOZEMAN, LLC – NO OTHER CHANGES TO THE ORGANIZATION HAVE BEEN MADE

Nelson Labs and a leading global provider of mission-critical sterilization and lab-testing and advisory services for the healthcare industry, announced that it has changed the name of BioScience Laboratories, LLC a Bozeman Montana-based outsourced provider of laboratory testing for manufacturers of consumer, healthcare, and pharmaceutical products. BioScience Laboratories' new name will now be Nelson Laboratories Bozeman, LLC. This represents one more step of their integration into the Nelson Labs Family.

Even though the BioScience Laboratories name has changed, they will continue to use the same Tax ID number—[click here](#) for a new W-9 form showing the name change. Please make sure your purchasing or vendor management group is aware of this name change.

Accreditations and certifications for the laboratory remain unchanged. There are no additional changes to the systems, processes, or tests at Nelson Labs as a result.

We look forward to continuing to provide you the best in laboratory services and to deliver on our mission of Safeguarding Global Health®.

Matthew D. Cushing
Vice-President, Global Quality & Science
Nelson Labs, LLC
