

## 96W SERIES

### Electric Pin Packages

DESTACO now offers single and dual shaft 96W Electric Pin Packages with adjustable stroke speed and height up-to-60mm, by way of the integrated control module. They can be ordered and/or configured in a straight or redirected configuration and motors can be rotated for greater flexibility. They also features integrated sensors that allows for production variations.

Leading the way into the future, our growing BIW product line of smart, electric products eliminate CO<sup>2</sup> use, provide important data and control for optimizing efficiencies, and are a frontrunner for flexible manufacturing with Plug & Play solutions.

As production requirements evolve, DESTACO will continue to expand our product portfolio of electric solutions for use in all types of manufacturing processes.

Dual Shafts with adjustable strokes up-to-60mm

Single Shafts with adjustable strokes up-to-40mm or 60mm

#### PRODUCT HIGHLIGHTS/OPTIONS

- One size fits all - Variance reduction
- Single and Dual Shafts
- Can be used for locating and positioning
- Energy efficiency - CO<sup>2</sup> reduction
- High repeatability and accuracy

LOCATING

#### FEATURES & BENEFITS

ELECTRIC

- Daisy chain connection requires less cables
- Two control and drive options available
- Fast start up during installation

PERFORMANCE

- Controlled motion provides smooth extension and retraction
- Infinite stroke positions for multiple applications
- Adjustable speed offers cycle time optimization

NO/LOW MAINTENANCE

- Predictive maintenance for improved production planning
- Provides quick restart after emergency stop

## 96W Electric Pin Package

All DESTACO 96W series pin packages feature:

- Adjustable extend and retract stroke and speed control
- Drive motors can be ordered in an inline (straight) or a redirected configuration
- Two control and drive options available (400V and 48V)
- Front and side mounting

### Single Shaft

Different rod adaptor options available

Adjustable stroke up-to-40mm  
\*for single shaft, straight motor options only.

Adjustable stroke up-to-60mm

Motor connection positions can be rotated in 90° increments  
\*excludes dual shaft 400 V motor option.

### Dual Shaft

Ideal for applications using offset locating pins which requires accuracy

Provides high anti-twist functionality during operation
