NOVEEN LIMITED WARRANTY

Noveen vanities are built to meet high Australian quality standards, and each component is supported by a dedicated warranty for long-term confidence. Our moisture-resistant cabinets include a **10-year replacement warranty** and **1 year of labour** for residential installations, while commercial use is covered for **1 year replacement** and **1 year labour**. Stone tops, ceramic tops, and shaving cabinets each carry a **5-year replacement warranty** and **1 year labour** for residential use, and **1 year replacement** with **1 year labour** for commercial applications.

These warranties apply only to the original purchaser and require valid proof of purchase. Labour coverage is limited to the first year. Damage caused by incorrect installation, misuse, accidents, or failure to follow care guidelines is not covered. Natural variations in stone, ceramic glazing, and timber or veneer finishes are normal and not considered defects. Noveen may inspect the product before approving any claim, and if the original model or finish is unavailable, a comparable replacement will be provided.
