

# Adjustable Receiver attached to a Flat Back Rainhead

# R-300X-BG Adapter

The adjustable adapter slides to fit any size box gutter from 200 to 503mm to fit the exact size you need.

Each Flat-back unit comes with one of these but they are also available to buy separately, if you need any additional units for any reason.

If at all unsure of just which sized unit you need, or would like a lot more technical data etc, there are detailed information charts and calculators, and also installation instructions available for download on the Dambuster website below.

FB+ Cut out + Box Gutter

FB + Eaves Gutter

Examples of typical Install options

Cut rear of flat back panel

Cut no lower than crease folded depth line to maintain compliant differential of 25mm between box gutter sole and overflow weir.

Adjust Dam Buster - Box Gutter Adaptor distance to suit outside of box gutter width

Inside of flange

Centered

Side edge

Trim edge wing on Box Gutter Adaptor if using tight to flange.

Unfold Box Gutter Adaptor, trim rainhead and fix to the side wall of the rainhead using sandwiched silicone and rivets.
