

Rainhead with FIXED Receiver

Rainhead + Top Trim (sold separately) installed

R300-400 Stretched

The R300-400 comes with a *FIXED* 400mm receiver designed to be installed directly to 400mm box gutters or dam busters range of side outlets (L shaped or T shaped), without the adjustable receiver on the Flat back versions.

Simply slide them on and complete the installation.

The R300-400 has the Height & Depth of the R300, but is stretched to the width of the R400 (400 wide).

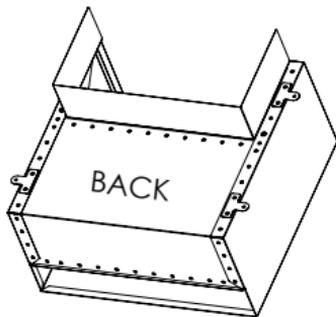

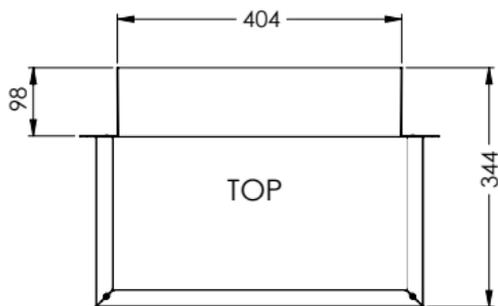

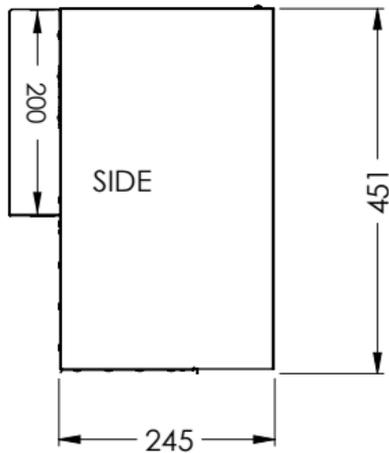

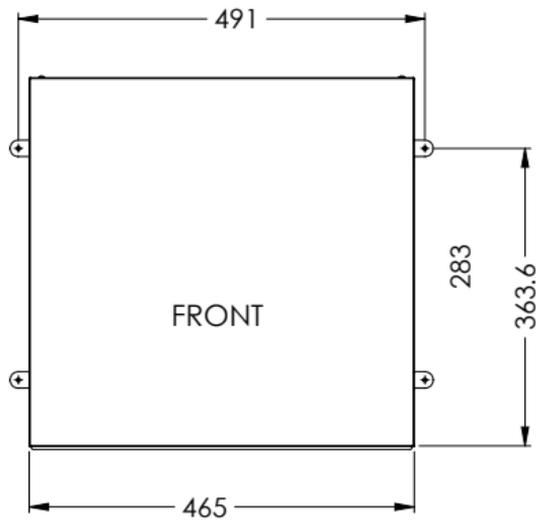

N.B the Top Trim/Beading is Sold Separately.

The units also come with fixing tabs installed to ensure compliancy when Installing them to the structure.

If at all unsure of just which sized unit you need, or would like alot more technical data etc, detailed information charts and calculators, and also installation instructions available for download on the Dambuster website below.
