

T Side Outlet or TSO with CHUTE LID installed

CHUTE LID Included

TSO shown with a R200 Rainhead attached

TSO 200

T-SIDE OUTLETS make the transition connection between your box gutter and the overflow device such as a Rainhead or Sump, where you have the exit at the end or middle section of the Box gutter.

The TSO 200, has an outlet size of 200mm that connects directly to a R200 fixed receiver Rainhead or Sump.

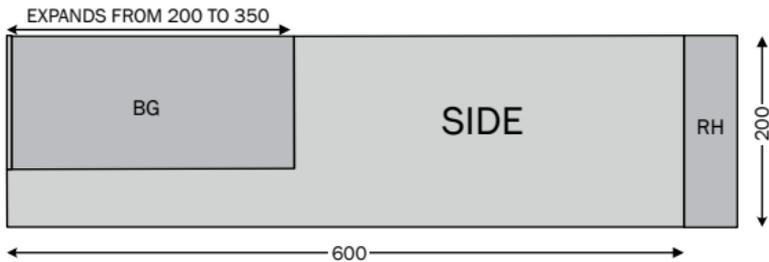

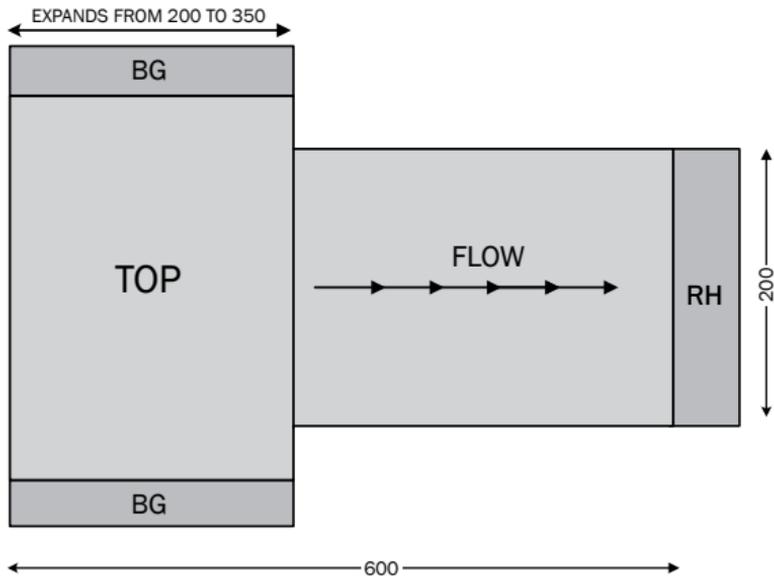

The Box gutter end is adjustable to any size from 200mm up to 350mm wide box gutters.

Each unit is sold with the CHUTE LID

If at all unsure of just which sized unit you need, or would like alot more technical data etc, there are detailed information charts and calculators, and also installation instructions available for download on the Dambuster website below.
