LED PAR 36 (4½" ROUND) TRACTOR/UTILITY LAMP – RUBBER HOUSING (19 DIODES)

LED ***NEW**

TECHSPAN® Par 36 housings are manufactured with synthetic resins. They have the feel and shock absorbing characteristics of rubber. This material is UV resistant which guarantees the colour will not fade or crack, and will withstand against road contaminants that normally deteriorate rubber housings. Mounting hardware is Zinc plated steel. These LED Utility lamps emit 250 Lumens and are available assembled in these rubber housings. You can also order just the sealed beams to retrofit an existing Incandescent Par 36 housing with an LED Par 36. They will also fit into rubber grommets and other housings.
