

Loom & Tubing

High Temperature Convoluted Tubing/ Split Loom (Nylon)

Nylon Convoluted Tubing/Split Loom has a temperature rating of 149°C (300°F) making it suitable for applications such as inside engine compartments, etc. Identified by its grey stripe.

Split Loom Installation Tools can be found below or on pages 123 or 126. Loom/ Tubing Cutting Tools can be found on page 126.

Small Packaging – (Rolled neatly in bags)

ID Size	50FT Roll	Package Type
1/4"	769901	Bag
3/8"	769902	Bag
1/2"	769903	Bag
5/8"	769904	Bag
3/4"	769905	Bag
1"	769906	Bag

Bulk Packaging – (Continuous Roll in a Box)

ID Size	Part#	Package Quantity	Packaging Type
1/4"	769901B	1 x 3200FT	Box
3/8"	769902B	1 x 1900FT	Box
1/2"	769903B	1 x 1100FT	Box
5/8"	769904B	1 x 800FT	Box
3/4"	769905B	1 x 550FT	Box
1"	769906B	1 x 300FT	Box
1-1/4"	769907B	1 x 250FT	Box
1-1/2"	769908B	1 x 150FT	Box
2"	769910B	1 x 100FT	Box

DID YOU KNOW?

High Temperature (Nylon) Convoluted Tubing/Split Loom is identified by having a grey stripe across the length of the tubing.

Nylon material allows for applications up to 149°C (300°F)
