

Battery Cable Assemblies

Multi-Battery 'Connect & Protect' Harnesses

Group 31 Multi-Battery systems can be extremely hard to maintain and service without having the right connections. Our Multi-Battery 'Connect & Protect' Harness Assemblies streamline battery connections with a secure and safe fit. Exposed connections are significantly reduced to minimize the formation of corrosion.

- For Group 31 Multi-Battery systems
- Made with 2/0 Battery Cable
- Fits up to 3/8" stud
- Attached protective cap seals connection
