

Heavy-Duty Relays (12VDC)

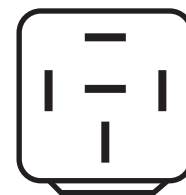

12VDC Weather-Resistant Relay with Detachable Metal Bracket (5-Terminal)

This relay comes with a detachable metal bracket and is sealed to protect against dirt, dust and moisture.

12VDC, SPDT 40/30A

Use with **764418** or **764419** pigtail harnesses.

Voltage (DC)	Form 'C'	Amperage		Suppressor Type	Bracket	Sealed	1 PC/PK	25 PCS/PK
		Normally Open	Normally Closed					
12VDC	SPDT	40A	30A	Resistor	✓		*765979	*765979Q

5 x 1/4" Terminals

*765979

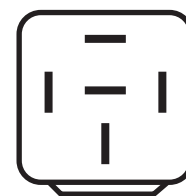

12VDC Relay with Attached Plastic Bracket (5-Terminal)

This relay is made with an attached plastic bracket that is not detachable.

12VDC, SPDT 40/30A

Use with **764410**, **764411**, **764412**, **764416** or **764417** pigtail harnesses or **765981** or **765982** socket & terminal sets.

Voltage (DC)	Form 'C'	Amperage		Suppressor Type	Bracket	Sealed	1 PC/PK	25 PCS/PK
		Normally Open	Normally Closed					
12VDC	SPDT	40A	30A	Resistor	✓		*765977	*765977Q

5 x 1/4" Terminals

*765977

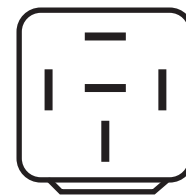

12VDC Relay with Built-In Fuse, Detachable Metal Bracket (5-Terminal)

An integrated fused relay combines the switching function and circuit protection into a single, compact unit, simplifying wiring by eliminating the need for separate inline fuse holders. This design protects the load circuit and wiring from overheating or short circuits, while also providing a convenient and organized troubleshooting point for aftermarket electrical installations. This relay comes with a detachable metal bracket and a 30A Blade Fuse.

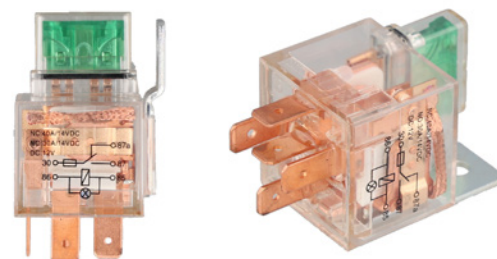

12VDC, SPDT 40/30A

Use with **764410**, **764411**, **764412**, **764416** or **764417** pigtail harnesses or **765982** socket & terminal set.

Voltage (DC)	Form 'C'	Amperage		Suppressor Type	Bracket	Sealed	1 PC/PK
		Normally Open	Normally Closed				
12VDC	SPDT	40A	30A	Resistor	✓		*765976

5 x 1/4" Copper Terminals

*765976
