

La Crosse®  
Variety Pack  
Dial Thermometers

La Crosse®

Model: 104-1512M  
DC: 102324

## Outdoor Mounting

For accurate temperature readings and longevity:

- Choose a protected location not subject to direct weather elements (sunlight, rain, snow, etc.).
- Under an eave on a north-facing wall is often a good solution.
- Avoid heat sources such as sunlight or exhaust vents; these will cause your thermometer to read high.

## Mounting Instructions

1. Remove the bracket from the thermometer and secure the bracket to a window frame or deck post with the included screws.
2. Insert thermometer into the installed bracket and adjust to the desired viewing angle.

## Specifications

**Temperature range:** -60°F to 120°F

**Dimensions:** 5.25 in L x 0.70 in W x 5.50 inH

Made in China - Printed in China

## Warranty & Support

La Crosse McCormick, LLC provides a 2-year limited warranty on this product against manufacturing defects in materials and workmanship. Under the Song-Beverly Act, in the state of California, the warranty on this item becomes effective on the date of delivery.

If a defect that is covered by this warranty arises during the warranty period, promptly return the product (postage prepaid) with proof of purchase showing the date of purchase to the following address and such defects will be repaired, or the product will be replaced at La Crosse McCormick, LLC option without charge.
