

LA CROSSE®
TECHNOLOGY

14" ULTRATOMIC WALL CLOCK

SETUP GUIDE

MODELS: 404-1235UA-PL | 404-1235UA-SS

Power Up

1. Slide the Time Zone Switch to your time zone.
PT = Pacific, MT = Mountain, CT = Central, ET = Eastern
2. Select DST (Daylight Saving Time) setting ON/OFF. When ON is selected, the clock will automatically adjust for DST (most common).
3. Insert at least two fresh “C” batteries into the center battery compartments.
Additional batteries will extend battery life.

Important: Be sure all batteries are of the same voltage level.

Note: When batteries are installed, the hands will move to the 4, 8, or 12 o'clock position and remain there until the WWVB transmission is picked up. Once the signal is received, the hands will move to the correct time according to your time zone and DST settings.

Custom Time Zone Settings

Select time zones from +0 GMT to -11 GMT.

1. Slide the Time Zone Switch to the ET (Custom) position and wait until the hands set to Eastern Time.
2. Press and release the Set Button to advance the hands in one-hour increments until you reach your desired time.
3. The clock will keep time from this new setting.

UltrAtomic Time Reception

By combining a dual-antenna design with the NIST's phase-modulated WWVB time broadcast system, this clock provides improved signal reception for faster synchronization, reliable time updates, and greater flexibility when choosing a location within your home.

For information about WWVB visit: bit.ly/atomic_time

Manual Set Time

1. Set the DST Switch to OFF (Q-Set) and the Time Zone Switch to Q-Mode. The hands will move to the 4, 8, or 12 o'clock position.
2. Press and release the Set Button to adjust the time slowly, or hold the Set Button to adjust quickly.
3. When at your current time, slide the DST Switch to the ON (Q-Run) position. The second hand will start running from 12:00 and the clock will keep time manually, unaffected by the WWVB atomic signal.

Eco Mode

Eco Mode is a battery-saving feature that turns off the second hand motion between the hours of 11pm and 5am. When set to OFF, the second hand will run continuously.

Sleep Option

Sleep Mode helps preserve battery life during extended periods of non-use. With batteries installed, allow the clock to receive the Atomic Time Signal, then move the switch to SLEEP. When ready to use the clock again, select a time zone, and it will automatically set to the correct time.

Low Battery

When your batteries are running low, the second hand will stop and remain at the 6 o'clock position until new batteries are installed.

Battery Replacement

When mixing new and old batteries, or using a different brand or type, the risk of over-discharging may occur due to the differences in voltage or capacity. This can result in venting, leakage, and rupture and may cause personal injury.

- Do Not Mix Old and New Batteries.
- Do Not Mix Alkaline, Standard, or Rechargeable Batteries.
- Always purchase the correct size and grade of battery most suitable for the intended use.
- Always replace the whole set of batteries at one time. Do not mix old and new ones or batteries of different types
- Clean the battery contacts and also those of the device prior to battery installation.
- Ensure the batteries are installed correctly with regard to polarity (+ and -).
- Remove batteries from product during periods of non-use. Battery leakage can cause corrosion and damage to this product.
- Remove used batteries promptly.
- For recycling and disposal of batteries, and to protect the environment, please check the internet or your local phone directory for local recycling centers and/or follow local government regulations.

Specifications

- **Movement:** UltrAtomic
- **Atomic Time Zones:** Pacific, Mountain, Central, Eastern
Custom +0 GMT to -11 GMT
- **Time Digit Height:** 1.09 in (2.76 cm)
- **Lens:** Glass (404-1235UA-SS) or Plastic (404-1235UA-PL)
- **Construction:** Plastic, Glass, Metal
- **Placement:** Indoor
- **Mounting Type:** Wall Mount
- **Numerals:** Arabic
- **Power Requirements:** 2 “C” Alkaline Batteries (Not Included)
- **Extended Battery:** 2 Optional “C” Alkaline Batteries (Not Included)
- **Battery Life:** 3+ Years (2 Batteries)
- **Extended Battery Life:** 5+ Years (4 Batteries)
- **Clock Face Dimensions:** 12.7 in (32.26 cm)
- **Dimensions:** 14 inch (35.56 cm) Diameter 2.28 inch (5.80 cm) Depth
