MOUNTING

Indoor: Use the integrated Hanging Hole on the back to mount the clock indoors on a wall.

Outdoor: Choose a location with an overhang to protect the clock from the overhead sun or standing snow or rain. A shaded location will prevent inaccurate temperature readings. Use the integrated Hanging Hole on the back to mount the clock indoors on a wall.

THERMOMETER

- The Clock has a analog sensor that measures surrounding temperature.
- The temperature information is displayed in degrees Fahrenheit
- The thermometer is precalibrated and self adjusting and does not require a battery to operate.

- **Battery Life:** 12+ months
- **Temperature Range:** 0°F to 100°F
- **Dimensions:** 8.0 in Diameter (20.32cm) 1.65 in Depth (4.2cm)

CARE & MAINTENANCE

When batteries of different brand or type are used together, or new and old batteries are used together, some batteries may be over-discharged due to a difference of voltage or capacity. This can result in venting, leakage, and rupture and may cause personal injury.

- Always purchase the correct size and grade of battery most suitable for the intended use.
- Always replace the whole set of batteries at one time, taking care not to mix old and new ones, or batteries of different types.
- Clean the battery contacts and also those of the device prior to battery installation.
- Ensure the batteries are installed correctly with regard to polarity (+ and -).
- Remove batteries from product during periods of non-use. Battery leakage can cause corrosion and damage to this product.
- Remove used batteries promptly.
- For recycling and disposal of batteries, and to protect the environment, please check the internet or your local phone directory for local recycling centers and/or follow local government regulations.
