## BASICS

### Power Up

- With the USB-C Power Cord connected to the included Wall Adapter, plug it into an outlet. Then insert the USB-C end into the back of the clock. **Optional:** Insert 2-AAA Alkaline Batteries for backup.
- Set Time.

### Set Time

- Hold the **SET** button to enter the Settings Menu.
- Use the **+** or **-** button to adjust the numbers.
- Press and release the **SET** button to move to the next item or exit.

- AAA + Battery  
 + AAA - Compartment for optional 2-AAA batteries.  
 USB-C Port to Power the Clock  
 USB-A Charging Port for your external device. Charging cord not included.

### Settings Menu Order:

- Hour
- Minutes
- Year
- Month
- Date

**Note:** The Year, Month and Date will not show on the normal time display. They are set to allow the Alarm 2 options to work.

## Buttons

## 1 SNOOZE/BRIGHTNESS

## 1. SNOOZE/BRIGHTNESS

Tap to change LED Brightness. When alarm sounds, tap to snooze the alarm.

## 2. + PLUS

Press and release to adjust Glow Light Brightness and settings in menus.

## 3. SET

Hold to enter Settings Menu.

## 4. - MINUS

Press and release to adjust Glow Light Brightness and settings in menus.

## 5. COLOR

Press and release to select Glow Light Effect or Color.

6. ALARM 1 

Press and release to activate/deactivate Alarm 1. Hold to enter Alarm 1 Settings.

7. ALARM 2 

Press and release to activate/deactivate Alarm 2. Hold to enter Alarm 2 Settings.

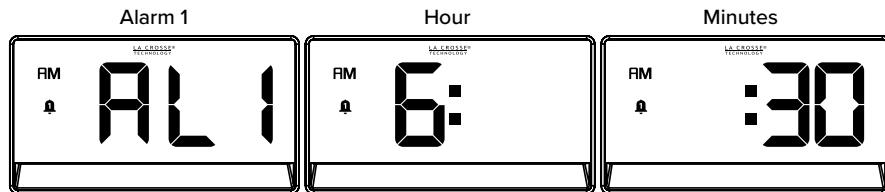

This clock offers two types of alarms:

**AL 1** offers the same alarm time seven days a week.

**AL 2** allows the selection of a Seven Day (1-7), Monday-Friday (1-5), or a Weekend Only (6-7) alarms.

## Set Alarm 1

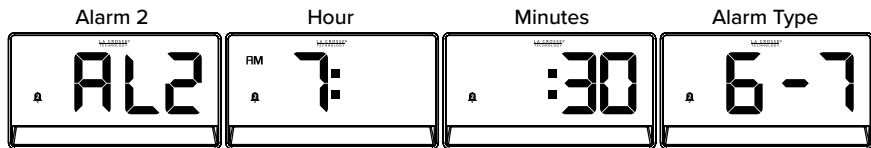

1. Hold the  button to enter the Alarm 1 Settings. AL 1 will show.
2. Use the + or - button to adjust the numbers.
3. Press and release the  button to move to the next item or exit.

## Set Alarm 2

1. Hold the  button to enter the Alarm 2 Settings. AL 2 will show.
2. Use the + or - button to adjust the numbers.
3. Press and release the  button to move to the next item or exit.

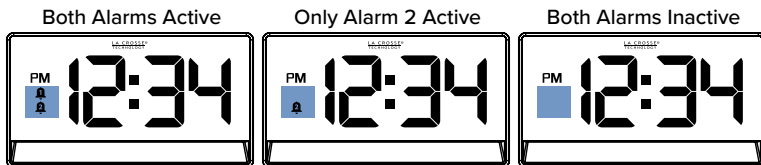

## ALARM

**Alarm 2 options:** Seven Day (1-7), Monday-Friday (1-5), or Weekend Only (6-7).

### Activate / Deactivate Time Alarms

- Press and release the  or  button to activate or deactivate the time alarm. The alarm time will show briefly.
- The appropriate Alarm Icon  or  will show when active. Both alarms may be active at the same time.

**Note:** Keep neighbors in mind; the alarm will sound between 80-90 decibels to ensure you are awake.

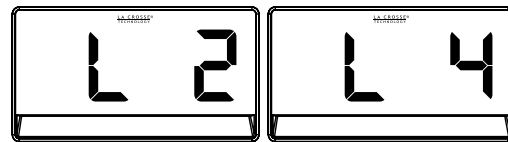

## ALARM

### Snooze

- When either alarm sounds, press and release the **SNOOZE/BRIGHTNESS** button to silence the alarm for 10 minutes.
- The appropriate Alarm Icon  or  will flash.
- Press any button except **SNOOZE/BRIGHTNESS** to silence the alarm for 24 hours (or the next preset alarm time).
- Both alarms will sound for two minutes with increasing frequency if not turned off or snoozed. After two minutes they will automatically turn off.

### BACKLIGHT BRIGHTNESS

- Tap the **SNOOZE/BRIGHTNESS** button to adjust the Backlight Brightness four levels or off.
- L1, L2, L3, or L4 will show while adjusting the Backlight. Nothing will show when the level is OFF.

## COLOR GLOW LIGHT

# Glow Light Selection

### Select Glow Light:

Press and release the **COLOR** button to toggle through the different Glow Light options.

### Color Changing Effects:

Gradient Rainbow

Ocean

Forest

Dawn

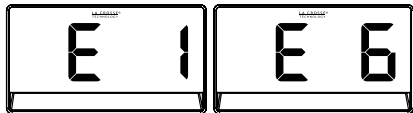

Sunshine

Midnight

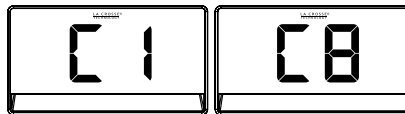

- **E1 Gradient Rainbow:** Cycle through all colors
- **E2 Ocean:** Blue, cyan, & green
- **E3 Forest:** Yellow, cyan, & green
- **E4 Dawn:** Purple, red, orange, & yellow
- **E5 Sunshine:** Yellow, orange, & red
- **E6 Midnight:** Purple, blue, & cyan

## COLOR GLOW LIGHT

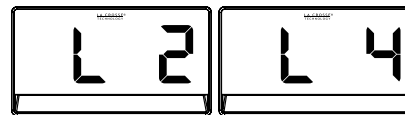

### Solid Color:

Red | Orange | Yellow | Green | Cyan | Dark Blue | Purple | White

### Glow Light Brightness:

- Press and release the + or - button to adjust the Glow Light Brightness.
- There are five levels plus an OFF option that will cycle through with each button press.
- If the Glow Color Light Brightness is set to OFF, press and release the COLOR button to move to the next color option at full brightness.

## USB CHARGING PORT

# USB Charging Port

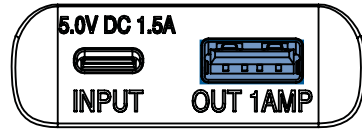

There is a USB-A Charging Port located on the back of your alarm clock.

- Connect your external device's USB charging cable (not included) into the USB Charging Port.
- Charging times may vary.
- USB Power Output: 1 Amp maximum current

## BATTERY BACKUP

# Battery Backup

- Insert 2-AAA batteries (not included) to maintain Time and Alarm Settings in the event of a power outage.
- The Backlight and Glow Light will be dark.
- Alarms will sound at selected times if active.
- Tap the **SNOOZE/BRIGHTNESS** button to view the Time briefly.
- During a power outage, the USB Charging Port will not work.

## APPENDIX

# Specifications

## Caution!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized changes or modifications to this equipment. Such changes or modifications could void the user authority to operate the equipment.

**All rights reserved.** This manual may not be reproduced in any form, even in part, or duplicated or processed using electronic, mechanical or chemical process without the written permission of the publisher.

This booklet may contain errors or misprints. The information it contains is regularly checked and corrections are included in subsequent editions. We disclaim any responsibility for any technical error or printing error, or their consequences. All trademarks and patents are recognized.

## California Residents

**WARNING** This product can expose you to chemicals including acrylonitrile, 1, 3-butadiene, and styrene, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to:

[www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## Care & Maintenance

When batteries of different brand or type are used together, or new and old batteries are used together, some batteries may be over-discharged due to a difference of voltage or capacity. This can result in venting, leakage, and rupture and may cause personal injury.

- Do not mix Alkaline, Lithium, standard, or rechargeable batteries.
- Always purchase the correct size and grade of battery most suitable for the intended use.
- Always replace the whole set of batteries at one time, taking care not to mix old and new ones, or batteries of different types.
- Clean the battery contacts and also those of the device prior to battery installation.
- Ensure the batteries are installed correctly with regard to polarity (+ and -).
- Remove batteries from product during periods of non-use. Battery leakage can cause corrosion and damage to this product.
- Remove used batteries promptly.
- For recycling and disposal of batteries, and to protect the environment, please check the internet or your local phone directory for local recycling centers and/or follow local government regulations.

## Recycling & Disposal

Please consider the environment when deciding to dispose of this product. Although household electronics are generally safe to use on a daily basis, incorrect disposal can cause negative and potentially irreversible impacts on our environment.

Check with local donation centers to see if your product can be donated for future use. If disposal is the only option, federal agencies, local governments, and certified retailers may have electronic recycling programs in place. Programs may vary based on location.

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) This device must accept any interference received, including interference that may cause undesired operation.

### Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
