CARE AND MAINTENANCE

When batteries of different brand or type are used together, or new and old batteries are used together, some batteries may be over-discharged due to a difference of voltage or capacity. This can result in venting, leakage, and rupture and may cause personal injury.

- Always purchase the correct size and grade of battery most suitable for the intended use.
- Do Not Mix Old and New Batteries.
- Do Not Mix Alkaline, Standard, or Rechargeable Batteries.
- Clean the battery contacts and also those of the device prior to battery installation.
- Ensure the battery is installed correctly with regard to polarity (+ and -).
- Remove the battery from product during periods of non-use. Battery leakage can cause corrosion and damage to this product.
- Remove a used battery promptly.
- For recycling and disposal of the battery, and to protect the environment, please check the internet or your local phone directory for local recycling centers and/or follow local government regulations.

STAY IN TOUCH!

Ask questions, watch set up videos, and provide feedback on our social media outlets. Follow La Crosse Technology on Youtube, Facebook, and Instagram.

WARNING: This product can expose you to chemicals including acrylonitrile, 1, 3-butadiene, and styrene, which are known to the State of California to cause cancer and birth defects or other reproductive harm.

16" Inch Atomic Wall Clock

Model: WT-3161WHx1

DC: 121525

POWER UP

1. Select Time Zone and DST settings.
2. Insert one, two, or three batteries into the Battery Compartments.
3. The hands will move to the 12 o'clock position and search for the WWVB Atomic Time Signal for up to 10 minutes.
 - If no signal after 8-10 minutes, the clock will run from 12:00.
 - Allow up to 5 nights to receive this transmission, the clock will continue to search for the WWVB signal on its own.
4. For the best reception, place the clock on an exterior wall near a window with the front or back of it facing Fort Collins, CO.

Watch the setup video: bit.ly/wallclock_setup

Note: In certain areas, this clock may not be able to receive the WWVB reception due to signal strength or interference. In this case, your clock can be set manually until the Atomic Time Signal can be received.

For information about WWVB, Atomic Time Signal visit:

bit.ly/atomic_time

MANUALLY SET TIME

Hold the SET button for about 3 seconds.

- Press & Hold SET to move hands quickly.
- Press & release SET to move hands step by step.

Note: The Atomic Time Signal will override manual settings.

Reset: If the clock does not respond when trying to manually set your time, press the RESET button.
