# LEADER IN FIBERGLASS POLES

**THE ORIGINAL AND STILL THE BEST**

## THE ORIGINAL FIBERGLASS POLE INTRODUCED IN 1956

Jameson introduced the first fiberglass lay-up sticks in 1956 to meet the needs of telecommunication linemen.

The strength and durability of fiberglass proved indispensable when lifting leak detection equipment overhead and soon replaced wooden poles as the industry standard.

Today, Jameson poles are available in a variety of configurations with tools and accessories to serve telecommunication linemen, professional arborists and landscapers.

By consistently providing the highest quality fiberglass poles, Jameson remains the professional's choice for line clearance and tree care.

since  
1956

## Universal Aluminum Ferrules & Adapters For Ultimate Versatility

Aircraft grade aluminum ferrules with exterior leaf spring locking button provide a secure connection when attaching multiple poles or tool heads

### How To Choose The Right Pole For Your Job

- 1 Select pole model based on application (table below)
- 2 Select configuration based on application (next page)

## PUTTING IT TOGETHER Customize Poles & Accessories

- 1** Choose your tool head (pruner, pole saw or accessory)
- 2** Attach tool head to pole's female ferrule with adapter
- 3** For additional length, attach extension pole(s)

*For highest performance and safety, Jameson recommends using a Base Pole when using one pole or starting with a Base Pole when working with multiple poles.*

### POLE CONFIGURATIONS

Base Pole - Jameson recommends starting with Base Pole

Extension Pole provides additional length, extending workable height.

Saw Head Pole is for use with Saw Blade.

### ADAPTER & FERRULE SYSTEM

Makes it easy to change from pruner head to pole saw head or pole lengths of 4' to 12'. An exterior leaf spring locking button on ferrule offers a strong connection, whether attaching poles or tool heads.

This versatility saves time and money in the field.

### SAW HEAD POLE SET UP

Use saw blade with Saw Head Pole or use Pole Saw Head (page 11) with Extension Pole.

Jameson recommends using Saw Head Poles with Base Poles

## JE FOAM CORE POLES

### Preferred For Aerial Construction & Line Clearance

Jameson's original foam core pole is the highest quality fiberglass pole available.

- Foam core prevents debris and moisture build up inside pole and adds extra hoop strength and rigidity
- Polymer protective surface veil prevents fiber blooming at surface due to abrasion or ultra-violet light
- High visibility safety yellow color
- Meets requirements of OSHA Subpart R 1910.269(j)(1)(i):

**Individually tested to 100KV per foot for five minutes**

## BL HOLLOW CORE POLES The Lightweight Option For Tree Trimming

Jameson's highest strength-to-weight ratio pole is lightweight and easy to control, making it ideal for tree trimming.

- Lighter weight results in less fatigue during extended work periods and easier handling
- Durable, high gloss enamel coating for long life, easy cleaning and fiber bloom prevention

**Batch tested to 100KV per foot for five minutes**

## JA SIDE-CUT PRUNERS

### For Professional Arborists

This pulley pruner was manufactured with forged steel components for strength, designed for the professional arborist. These heavy duty pruners have a 1-1/4 in. cut capacity with side cut action. The pulley feature reduces the pulling force needed to make the cut. The pruner also features an enhanced spring for smoother cutting action and a raised hook edge to reduce blade drag. Features a removable upper spring pin and blade bolt for easy blade replacement and sharpening.

- Forged steel components for added strength
- Enhanced spring for smoother cutting action
- Raised hook edge reduces blade drag

Part Number	Description
JA-14	Pulley Pruner, 1.25" cutting capacity

Part Number	Description
JA-14S	Swivel Pulley Pruner, Swivel versatility in pull direction and more leverage with less pressure on pulley arm. 1.25" cutting capacity

Part Number	Description
JA-14DP	Double Pulley Pruner provides additional leverage and significant reduction in required pulling force. 1.25" cutting capacity. Adapter included.
