

HAND SAWS

Featuring impulse-hardened tri-cut teeth, these saws deliver unmatched efficiency and clean, accurate cuts with every stroke. For added versatility, the blades on both our soft grip and wood handle hand saws are fully replaceable and interchangeable with our pole saws.

Choose the ergonomic soft grip handle, designed with an index finger stop for improved safety and an integrated opening for a lanyard line attachment. Or, opt for the classic wooden handle to enjoy a traditional feel with timeless durability.

BARRACUDA™ TRI-CUT EDGE

Power. Precision. Performance.

Barracuda™ Tri-Cut Teeth – Impulse hardened for lasting sharpness and cleaner cuts.

Fast & Efficient – Set teeth reduces effort on thicker cuts, saving you time and energy.

Clean Results – Smooth cuts with less tearing for healthier trees and a professional finish.

Durable Design – Chrome plated steel extends blade life and reduces replacements.
