

JA PROFESSIONAL PRUNERS

JA SIDE-CUT PRUNERS

BUILT FOR PROFESSIONAL ARBORISTS

Designed for durability, precision, and ease of use, JA Side-Cut Pruners are the ultimate tool for professional arborists. With enhanced features for smoother cutting, improved cut-safe feature for safety, and effortless maintenance, these pruners deliver the performance you need for every job.

Easy Maintenance – Removable upper spring pin and blade bolt for quick blade replacement and sharpening.

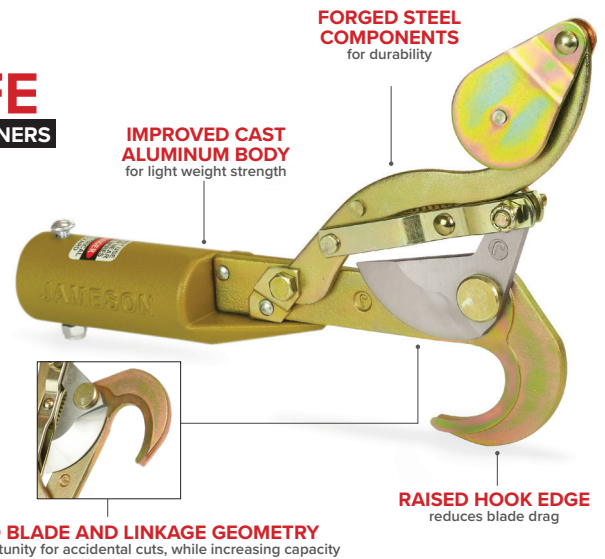

Durable & Strong – Forged steel components for added strength and longevity.

Smooth Cutting – Enhanced spring ensures effortless cutting action.

Reduced Blade Drag – Raised hook edge minimizes friction for cleaner cuts.

Optimized Safety & Efficiency – Improved linkage and blade geometry allow full blade retraction, preventing accidental cuts and protecting equipment.

Lightweight & Reliable – Upgraded cast aluminum body delivers strength without added weight.

JA-14

Fixed Pulley Pruner
1.25" cutting capacity

JA-14S

Swivel Pulley Pruner
1.25" cutting capacity
Swivel provides versatility in pull direction and more leverage with less pressure on pulley arm.

JA-14DP Adapter included

Double Pulley Pruner
1.25" cutting capacity
Double pulley for additional leverage and significant reduction in required pulling force.
