

FOLDING POLE SAW

Folding Pole Saw with Barracuda™ Tri-Cut Blade

The folding pole saw combines safety and convenience with its foldable design, lightweight construction, and easy tool installation. Its high-visibility yellow finish prevents tool loss and serves as a handsaw. Paired with the Barracuda™ Tri-Cut Saw Blade, the 13-inch hard-chrome plated blade ensures cleaner, quicker cuts and extended durability. This dynamic duo enhances efficiency and safety for arborists and homeowners alike.

Enhanced Safety: Safeguard against accidents with a blade cover that shields the cutting edge when not in use.

Gear Protection: Protect ropes, harnesses, and equipment from costly damage during climbing and storage.

Lightweight Advantage: Experience superior mobility with a lightweight design, outperforming traditional pole saws with leather scabbards.

Effortless Installation: Compatible with all Jameson poles with standard ferrule, it features the new tapered ferrule that eliminates the hassle of pulling spring clips when installing the tool.

Double-Security Lock: Ensure blade stability and safety with a locking mechanism that firmly secures the blade in both open and closed positions.

High Visibility: Never lose sight of your tool, thanks to its eye-catching high-visibility yellow finish.

Versatile Functionality: Extend its utility beyond a pole saw – it can also serve as a handsaw for tasks within easy reach.
