The JTL Heavy Duty light is built to brighten up your space while withstanding even the toughest conditions you can throw at it. Portable and versatile, this multi-purpose light is ideal for a wide range of activities whether for work or play.

FEATURES

- 01 MILITARY-GRADE TOUGH:** shatterproof protective shield, water-resistant construction suitable for use damp or rainy conditions.
- 02 ENERGY-EFFICIENT & LOW-HEAT:** flicker-free cool white twin lamp CFL emits a clear, bright natural light perfect for illuminating workspaces and jobsites or used as a focused task light.
- 03 FLEXIBLE & EXPANDABLE:** pass-through power design allows for stringing multiple lights together to cover larger workspaces and complete on/off control of either the entire string or individually at each light in the string.
