

POWER ASCENDERS

REVOLUTIONIZING HUMAN ASCENSION

RONIN TITAN LIFT: ELEVATE YOUR BUSINESS

The Ronin Titan Lift single-person powered ascender is designed to rapidly transport personnel up and down transmission towers to improve productivity, save time and prioritize worker safety.

No other equipment on the market matches the Ronin Titan Lift's ability to speed up the climbing process while also reducing fatigue and minimizing fall risks for climbers.

Boasting an impressive lifting capacity of 400 lbs. the Ronin Titan Lift can boost ascent and descent of up to 800 feet of rope on a single battery charge.

THE WORLD'S SMALLEST, LIGHTEST & MOST POWERFUL **POWER ASCENDERS**

RONIN TITAN LIFT

Unparalleled Safety

Quick Ascent and Descent: Allows rapid access to transmission structures, minimizing time spent at height.

Controlled Gravity Descent: Prevents accidental loss of load during descent, enhancing safety.

Remote Control Operation: Enables safe, hands-free lowering of the equipment to the next user.

Reduced Physical Strain: Significantly lowers the physical demands placed on workers.

Decreased Fatigue: By minimizing exertion, it reduces the likelihood of falls or accidents at height.

Enhanced Longevity & Job Satisfaction: Supports long-term career health by minimizing wear on the body.

KEY FEATURES

Lightweight & Compact: Weighs just 18 lbs (including battery), ensuring easy transport and quick setup.

Impressive Lifting Capacity: Capable of single-person ascension up to 400 lbs with a breaking strength exceeding 5,000 lbs.

Highly Portable & Adaptable: Can be rigged to a variety of anchor points, providing versatility in different environments.

Remote-Controlled Operations: Offers precise control for lifting and lowering tasks.

Seamless Integration: Compatible with existing fall protection systems for added safety.

Fixed Position Mounting: Can be securely mounted to lift individuals into position for specific tasks.

ANSI/ASSP Z459.1-2021 Compliant: Meets stringent safety standards for both ascension and descension.

Ronin Part Number	Description
KIT1011-11	Black Ronin Titan Lift Kit: Human Ascension/Rescue
SPECIFICATIONS	
Weight w/Battery	19 lbs. (8.2 kg)
Dimensions	11.25" x 13.5"D x 11.75"H (28.58 cm x 34.29 cm x 29.85 cm)
Speed	0.5 - 1.5 ft/s (0.15 – 0.46 m/per second)
Ascent @ 200 lbs (Single Charge)	700 ft. (213 m)
Working Load	400 lbs. (181 kg)
